

Oregon Department of Fish and Wildlife
presents the
National Archery in the Schools Program

What is NASP®?

NASP® is an in-school archery program for students in grades 4-12. The archery curriculum was written by education, conservation, and target archery experts to meet state and national educational standards.

What do the students and instructors have to say about NASP®?

NASP® improves student motivation, attention, behavior, attendance, and focus! Students are engaged in the educational process while improving micro and macro motor skills, listening skills, and observation skills, while simultaneously building character and self-reliance.

How does a school get started in NASP®?

- ☉ Gain permission from the school's Principal and/or Athletic Director.
- ☉ Attend a 1-day, 8-hour training to obtain your Basic Archery Instructor certification (required for all NASP® instructors).
- ☉ Get equipment! For a *limited time*, ODFW is providing equipment kits at **no cost**.
- ☉ Start shooting!

NASP® must take place for 10+ hours per year during the regularly scheduled school day. Schools can also build a NASP® After-School Club. Students are encouraged to compete within the state and nationally, where they can win scholarships.
