The Wallowa-Whitman National Forest intends to manage the area between and around Chesnimnus Cow Camps, Table Mountain and Miller Spring in 2014. A cooperative travel management plan was developed in 2013, which is being implemented in 2014. The area is open to motorized travel during the period of restrictions.

The green reflector (dot) system of posting open roads is used in this area. There will generally be no posting of closed roads or areas. Only those roads shown in green, and the adjacent area within 300 feet of those roads, are open to motorized vehicles during the period of restrictions beginning three days before rife season.

Motorized vehicle travel within the Travel Management Area boundary on all other roads and trails, and cross-country is prohibited except by special permit from the Wallowa-Whitman National Forest.

Period of Restriction: 3 days prior to Chesnimnus rifle bull elk season through the end of Chesnimnus rifle bull season

Nov. 5 - Nov. 16

OBJECTIVES:
1. Protect soils and wildlife habitat
2. Minimize harassment of wildlife
3. Maintain adequate bull escapement
4. Promote quality hunting

Hay and straw used by hunters for horse and mule feed or bedding must be certified free of noxious weeds to comply with Wallowa County Ordinance Controlling Spread of Noxious Weeds 2010-001. This requirement is necessary to limit the spread of noxious weeds. Please report noxious weeds.
