Hunting and fishing on private lands is a privilege, not a right. Private land hunting and angling opportunities will remain in the future only if the property and rights of private landowners are respected!

**Introduces Brok Trout**

- Dark marks on brown background indicate fishing violations.
- Red on brown background indicates hunting violations.

**Native Bull Trout**

- No dark marks on brown background indicate fishing violations.
- No red on brown background indicates hunting violations.

**Cooperative Travel Management Area**

**Period of Restriction:**

In Effect Year Round

This cooperative Travel Management Area (TMA) represents an agreement between JWTR LLC, Oregon Department of Fish & Wildlife, Oregon State Police (OSP), Oregon Wildlife Heritage Foundation, and the US Fish and Wildlife Service. The objective of this project is to retain public access for outdoor recreation on these private lands and to improve fish and wildlife habitat through seasonal travel restrictions. While no permission is needed to hunt and fish on these lands, it is important for visitors to remember that this is PRIVATE LAND. To protect this unique resource, an OSP Trooper will exclusively patrol all JWTR lands with the following specific objectives:

1. Reduce poaching of big game, game birds, and native fish species through increased crime surveillance, citations, and prosecutions of violators.
2. Reduce vandalism and prevent dumping of trash by prosecuting those implicated in these activities.
3. Reduce illegal recreational cutting.
4. Enforce seasonal road closures to protect wildlife and habitat resources.
5. Reduce resource damage caused by ATV's and other illegal off-road activity.
6. Ensure continued public access to over 600,000 acres of JWTR land by reducing or eliminating illegal and destructive activities.
7. Reduce fire danger. No open fires during the season.
