Stocked Fishing Ponds

on the North Fork John Day
Ranger District

The Oregon Department of Fish and Wildlife (ODFW), in cooperation with the Umatilla National Forest (US Forest Service), annually stock 20 rock quarry ponds on the North Fork John Day Ranger District with catchable-sized trout. Depending on access, the ponds are typically stocked by early to mid-June.

These ponds are not usually near developed campgrounds so plan your fishing trip as a day-use activity or come prepared for primitive camping.

If you do camp near the pond, please remember to tread lightly, respecting the environment and other users. Leave no trace or evidence that you were there. Do not clean your fish in the pond; doing so fouls the water. If you clean your fish on site, bury the waste parts. And remember to pack out your trash and keep vehicles on roads or in parking areas.

Oregon State fishing regulations apply to these ponds. Check your fishing regulations pamphlet, to make sure you have the appropriate fishing license.

Read on for directions to the ponds. A map is provided on the reverse side of this brochure to help you identify their location.

Good fishing!
