Instructions for Completing Salmon, Steelhead, Sturgeon, and Halibut Harvest Card (Tag)

Example of a coded entry while fishing on the Lower Rogue River on January 25, a fin-clipped Chinook then an unmarked Steelhead are taken. At Tahkenitch Lake, on December 30, a wild Coho is taken.

Species	Location	Length (inches)	Month	Day
I	225	36	I	25
6W	225	28	I	25
2W	93	30	12	30

SALMON, STEELHEAD, STURGEON & HALIBUT ANGLERS:

Upon landing and keeping an adult salmon, steelhead, legal size sturgeon, or halibut, the angler must IMMEDIATELY enter the codes for the species caught, ocean port or stream, and the month and day of catch. Record fish in consecutive order. Use only 1 line per fish. Sturgeon and halibut anglers must record the fish length in inches. Jack salmon are not required to be tagged.

ENTRIES MUST BE RECORDED IN BALL POINT PEN !

NO ERASURES ALLOWED !

HANDLE WITH CARE: When you catch and release fish, you are preserving a valuable resource for other anglers to enjoy in the future. Use barbless hooks in order to easily release your catch. Land fish as carefully as possible. Remove the hook quickly and gently, keeping the fish underwater. See page 18 for Catch and Release guidelines. Carefully released fish may also be counted on spawning grounds, ensuring adequate escapement for conservation and management of fish populations.

Codes	Species of Fish
I	Chinook Fin-Clipped (Hatchery) (king or blackmouth) - has black lower gum line
IW	Chinook Unmarked (Wild) (king or blackmouth) - has black lower gum line
2	Coho Fin-Clipped (Hatchery) (silver) - has white lower gum line
2W	Coho Unmarked (Wild) (silver) - has white lower gum line
3	Other Salmon - Pink (humpy); Chum (dog); or Sockeye
6	Steelhead Fin-Clipped (Hatchery)
6W	Steelhead Unmarked (Wild)
7	White Sturgeon - gray with uniform pale belly
9	Halibut

Return expired Harvest Card (tags) to qualify for prizes and help ODFW manage the fisheries and estimate total harvest.
