

OREGON DEPARTMENT OF FISH AND WILDLIFE

Preliminary 2023 Oregon Ocean Commercial Troll Salmon Catch and Effort Estimates

Through Week 34 (August 14 – August 20)

Troll Estimates are Unavailable Until 10 Days Following the Sampled Week

Management Area	NUMBER OF BOAT-DAYS				NUMBER OF FISH HARVESTED							
	Weekly 2023	Cumulative			Weekly 2023	CHINOOK Cumulative			COHO Cumulative			
		2023	2022	2021		2023	2022	2021	2023	2022	2021	
2	0	131	151	31	0	1,611	1,991	170	0	592	1,650	78
3	*	*	482	194	***	***	7,347	1,258	**	**	219	117
4	*	*	1,460	1,071	***	***	20,194	12,634	**	**	1,949	1,936
5	*	*	131	228	***	***	1,201	1,431	**	**	1	26
6	*	*	134	119	***	***	635	424	**	**	**	**
Totals	0	131	2,358	1,643	0	1,611	31,368	15,917	0	592	3,819	2,157

Weekly counts reflect landings in that week and may include landings after a season closure

Catch and effort are reported by area of catch for all Oregon landings:

Area 2 - Columbia River Area – Includes effort and catch from Leadbetter Point, WA to Cape Falcon

Area 3 - Tillamook Area – Includes effort and catch from Cape Falcon to Cascade Head

Area 4 - Newport Area – Includes effort and catch from Cascade Head to Heceta Head

Area 5 - Coos Bay Area – Includes effort and catch from Heceta Head to Humbug Mountain

Area 6 - Brookings Area – Includes effort and catch from Humbug Mountain to Point St. George, CA

Note: Landings from California into Oregon are not permitted under current ocean salmon regulations. Thus, this area effectively is from Humbug Mt. to the Oregon/California Border.

*Area closed to commercial salmon fishing

**Area closed to commercial coho salmon fishing

***Area closed to commercial Chinook salmon fishing
