NEED FOR THE RULE(S):

This rule is needed to implement an additional recreational white sturgeon retention fishery in The Dalles Pool. The recreational sturgeon fishery has a remaining balance of 225 fish (82% of the guideline) after the conclusion of the prior retention day open for this fishery. In-season monitoring indicates this fishery is within allowable harvest levels.

JUSTIFICATION OF TEMPORARY FILING:

There is not adequate time to go through normal rulemaking proceedings to modify the rules to open this retention season by the specified date and time.

Fisheries are managed to provide opportunity for recreational, commercial, and treaty fisheries while meeting species or stock-specific allocations while remaining within harvest guidelines.

Failure to adopt this temporary rule could cause serious prejudice to the public interest because anglers would not be allowed to harvest their share of this valuable resource.

AMEND: 635-023-0101

SUSPEND: Temporary 635-023-0101 from DFW 13-2026

RULE SUMMARY: This amended rule establishes two retention days for the recreational white sturgeon fishery on the mainstem Columbia River in The Dalles Pool (The Dalles Dam upstream to the John Day Dam) and all adjacent tributaries. Retention will be allowed on Sunday, February 22, 2026, and on Thursday, February 26, 2026, in these areas.

Modifications are consistent with actions taken by the Departments of Fish & Wildlife for the States of Oregon and Washington at a Columbia River Joint State hearing on February 19, 2026.

CHANGES TO RULE:

635-023-0101

(2) When open for retention, the white sturgeon legal size is from 43 to 54 inches fork length in The Dalles Pool and adjacent tributaries. ¶

(3) All other permanent rules for the Columbia River Zone, as stated in the current annual Oregon Sport Fishing Regulations, remain in effect.
