NEED FOR THE RULE(S):

This rule expands the open fishing area for the 2026 Winter Youngs Bay Select Area commercial salmon fishery. Additional fishing area can be provided since in-season monitoring indicates this fishery is tracking well within allowable harvest expectations for non-local spring Chinook.

JUSTIFICATION OF TEMPORARY FILING:

There is insufficient time to initiate the permanent rulemaking process to open the commercial fishing area by the specified date and time.

Fisheries are managed to provide treaty, recreational, and commercial fishing opportunities while meeting species- or stock-specific allocations and remaining within ESA guidelines.

Failure to open these fisheries would deny commercial fishers the opportunity to harvest then sell their share of this valuable resource in Oregon.

DOCUMENTS RELIED UPON, AND WHERE THEY ARE AVAILABLE:

1. Oregon State Action Notice, dated March 31, 2026.

A copy of the rules and the other documents relied upon for this rulemaking [the above document(s)] are available from the Oregon Department of Fish and Wildlife, Fish Division, 4034 Fairview Industrial Drive SE, Salem, Oregon 97302-1142. Contact Linda Spansel at 503-947-6233 or linda.d.spansel@odfw.oregon.gov to view by appointment between the hours of 8:00 a.m. and 4:00 p.m., on normal working days, Monday through Friday.

AMEND: 635-042-0145
