THIRTY TWO YEARS AS COMMERCIAL
FISHERMAN. EXTRA

SEPERATE
PAGE

Dan Marvin
326 NE 10th ct
Newport Oregon 97365

Age 49

Commercial fisherman since I was 17, I started my career on a 26ft salmon troller out of Newport. After a couple of years I went to work on the bottom and midwater trawl vessels that were being built after the phase out of the foreign fleets. I spent around 22 years in the Bering Sea trawl fishery, fifteen as a skipper. I'm a licensed master although retired due to some spinal surgery. I currently own and operate a 28ft Columbia River gillnetter and also have a two hundred pot crab permit and for the last four years I've worked with a large seafood processor out of Warrenton doing fleet management for Whiting and Sardine fleets.

I've been married for 18 years my wife is a bank manager and I have two high school aged children.

Describe in detail why you are interested in serving on this particular board. Include information about your background that supports your interest including career and/or public service history. You may complete this section on a separate sheet.

I have been involved with commercial fisheries for over 30 years. I currently hold permits and actively fish for crab, salmon, and rockfish. I am Co-chair of the Dorymen's Association which has a membership over 400 and represents commercial, sport, restaurants, ultimate consumers, and various other people that have an interest in our area. I am currently serving my second term on the Black/Blue Permit Review Board. I am serving on the Fisherman's Advisory Committee for Tillamook County where we are addressing issues such as marine reserves, wave energy, and other public access issues. I have testified numerous times at PFMC meetings and ODFW meetings.

I believe I am open minded and hold no bias towards any group. I have an interest in the process and the future of the Sisters.

I believe my interest and experience would make me a good candidate to serve on this board and to make decisions fairly & justly.

Re: Commercial Fisheries Permit Board Position

Dear DeAnna,

Thank you for your letter regarding serving on the Commercial Fisheries Permit Board representing the Sardine fishery. I am interested in serving and feel that I am more than qualified to serve in a useful capacity.

In 1999 my vessel "Evermore" made sardine landings into Astoria for the first time since the 1950's. Since then I have been involved in fishing for sardines out of Astoria. I am very aware of what is happening in the Oregon fishery and also the sardine industry on the west coast. If selected I will bring a package of knowledge, experience, understanding, and responsibility with me. I am sure that my involvement will be a benefit.

Please see the attached list of my career and public service history. Feel free to contact me with any questions you may have.

Thank you for your time and consideration.

Regards,

Ryan Kapp

Dear DeAnna:

I am writing in response to your letter dated January 24, 2008, regarding serving on the Commercial Fisheries Permit Board, representing the Sardine Fishery.

Yes, I would like to be on the Sardine Permit Board. Some of my qualifications and history are: I am a second generation fisherman; I've been in the commercial fishing business ever since I graduated from high school in 1957; Over the years I have fished mackerel, squid, tuna, albacore, halibut, white sea bass, soup-fin shark, black cod, swordfish, crabs, shrimp, Pacific whiting, Pollock, and Pacific cod.

I served on the Developmental Board ever since it started, and participated fully in the Sardine Limited Entry Program. I have fished sardines since 1999 and am very familiar with the permit process and the marketing of sardines. I also serve on the Washington Dept. of Fish and Game Sardine Advisory Board for approx. 7 years.

Sincerely,

Stanley Schones

RE: At Large Positions

Dear Deanna,

I wish to be considered for one of the at-large positions on the Commercial Fishery Permit Board. Having numerous years in the marine insurance business, and as a former commercial fisherman I believe my knowledge would be of some benefit to this board.

My background consists of brokering marine insurance for over 30 years. Arranging coverages, underwriting, consulting and claims adjusting. I am currently a licensed agent and consultant, my area of business encompasses the coast of California, Oregon, Washington and Alaska. Mainly commercial fishing vessels, charter vessels, excursion vessels, and guide vessels.

A commercial fishing background, beginning at an early age, exposed me to a number of different fisheries located on the west coast, later on the experience in Alaska. First hand is the best teacher and the people of the industry are very special.

Through the years of commercial fishing in the summertime I put myself through college: Clatsop Community College (2 years), Portland State University (5 years). During my time at Portland State I was recruited by a large marine insurance brokerage. The marine insurance brokerage along with my experience helped me to become very successful.

Commercial fishing, marine insurance, sales consulting and working with people. I believe the experience in the above have given me a fair and reasonable approach to any given situation.

In closing, I do wish that you consider me to the appointed position (At Large Public Representative) on the Commercial Fishery Permit Board.

Thank you again for your time and consideration.

Dear ODFW,

I would like to apply for the Commercial Fishery Permit Board as a public representative. I believe that I could help ODFW with the permit process for any of the commercial fisheries, including, but not limited to, roe herring, CR Gillnet Salmon, ocean troll salmon, ocean crab, and Blue/Black rockfish.

As a resident of Newport since 1994, I have been involved with both ODFW and the commercial fishing industry. I have volunteered with ODFW in salmon collection and enhancement of the Yaquina Bay Salmon. I am a board member of the U-Da-Man Fishing Tournament, a non-profit organization held the past five years and raising thousands of dollars for salmon enhancement. In addition, I have listened and worked closely with local commercial fisherman as they try to maintain family wage jobs and support the community here in Newport. I am available for meetings both here on the coast, as well as in Salem, when the need arises.

Thank you for your consideration. If you have any questions or concerns, please call my office at (541) 2650-2020, and I would be happy to talk with you or your group.

Sincerely,

Dan Hyduchak, OD
