

2009 Reg Page	Proposal Number	General (Statewide) Regulations	Rationale
---------------------	--------------------	---------------------------------	-----------

Licenses, Tags and Permits:									
	<p>1</p> <p>2</p> <p>2</p>	<p>3. All persons 14 years or older must have in possession a valid Oregon angling license to angle for or take or assist another in angling or taking of any fish for personal use, except:</p> <ul style="list-style-type: none"> • During “Free Fishing Weekend” (June 5-6 [6-7], 2010[09]) when no license or tag is required; • When taking smelt, crayfish, or bullfrogs [or freshwater clams]; • Oregon resident landowners and members of their immediate family may angle for fish on land they own and reside upon; • When angling in the Pacific Ocean within 3 miles of shore between Cape Falcon, Oregon and Leadbetter Point, Washington either a resident Washington license or an Oregon license is valid. Persons other than Washington residents must have a valid Oregon license to land fish in Oregon which were caught in the ocean. <p>4. All persons 14 years or older must have in possession a valid Oregon shellfish license to take any shellfish for personal use except:</p> <ul style="list-style-type: none"> • During “Free Fishing Weekend” (June 12-13 [6-7], 2010[09]) when no license is required; • When taking crayfish [or freshwater clams]; <p>5. All anglers, regardless of age, need in possession a valid Combination Angling Tag to angle for <i>salmon, steelhead, sturgeon</i> or <i>Pacific halibut</i>. Anglers may purchase only one Combined Angling Tag (authorizing harvest of 20 <i>salmon</i> or <i>steelhead</i>) per year. Any <i>salmon</i> or <i>steelhead</i> may be recorded on the Combined Angling Tag.</p> <p>6. Anglers may purchase multiple Hatchery Harvest Tags to record adipose or otherwise fin-clipped <i>salmon</i> or adipose fin-clipped <i>steelhead</i> harvested, in lieu of recording those fish on the Combined Angling Tag. Only adipose or otherwise fin-clipped <i>salmon</i> or adipose fin-clipped <i>steelhead</i> may be recorded on the Hatchery Harvest Tag.</p>	<p>1. Clarify that a persons needs an angling license not only to angle for fish, but to also take fish by other methods allowed by rule (spear, net, hand etc.) (ODFW)</p> <p>2. Correction, taking of freshwater clams was prohibited in 2009. (ODFW)</p>						
4	<p>5</p> <p>Key Issue</p>	<table border="1"> <thead> <tr> <th data-bbox="432 1094 835 1162">Licenses, Tags and Permits – Fish</th> <th data-bbox="835 1094 978 1162">Fee</th> <th data-bbox="978 1094 1549 1162">Qualifications</th> </tr> </thead> <tbody> <tr> <td data-bbox="432 1162 835 1326">Two-Pole Validation</td> <td data-bbox="835 1162 978 1326">\$16.50</td> <td data-bbox="978 1162 1549 1326">Adult and Juvenile Anglers (14-17 years of age) must possess a valid angling license in order to purchase a Two-pole validation. Anglers under age 14 may use two rods where allowed without a Two-Pole Validation.</td> </tr> </tbody> </table>	Licenses, Tags and Permits – Fish	Fee	Qualifications	Two-Pole Validation	\$16.50	Adult and Juvenile Anglers (14-17 years of age) must possess a valid angling license in order to purchase a Two-pole validation. Anglers under age 14 may use two rods where allowed without a Two-Pole Validation.	<p>Rule language needed as part of the new Two-pole validation. Includes fees established by Legislature. ODFW)</p>
Licenses, Tags and Permits – Fish	Fee	Qualifications							
Two-Pole Validation	\$16.50	Adult and Juvenile Anglers (14-17 years of age) must possess a valid angling license in order to purchase a Two-pole validation. Anglers under age 14 may use two rods where allowed without a Two-Pole Validation.							

STATEWIDE REGULATIONS

2009 Reg Page	Proposal Number	General (Statewide) Regulations	Rationale
---------------	-----------------	---------------------------------	-----------

Definitions:				
6	3	<u>Groundfish Group</u>	<u>Includes all species listed on or referred to on page 100 including lingcod, rockfish, greenling, cabezon, skates, flatfish other than Pacific halibut, and other species not listed on pages 100-101.</u>	Definition needed as part of proposals #66 and 67. Simplifies references to this group when talking about or making signs for retention rules for the halibut fishery, the 40-fm closure, and the Stonewall Bank YRCA. (Gway Kirchner)
7	4 (53)	Salmon	Includes 5 species: <i>Chinook, coho, chum, sockeye</i> and <i>pink</i> . Adult salmon are <i>coho salmon</i> over 20 inches in length and any other <i>salmon</i> species over 24 inches in length, except in the ocean where all legal size <i>salmon</i> are considered to be adults. <i>Jack salmon</i> are <i>coho</i> between 10 and 20 inches in length and any other <i>salmon</i> species between 15 and 24 inches in length when in fresh-water and bays. Jack salmon are not a <u>separate</u> species of salmon, but a life-history stage of various species of <i>salmon</i> that return to fresh-water and become sexually mature after only a short period in the ocean. Thus, there are jack, <i>coho</i> and jack <i>Chinook salmon</i> , for example. See exception to <i>salmon</i> minimum length limits for Section 2 of the Columbia River <u>and the Umatilla River</u> .	4. Clarification. Needed to clarify that jack salmon are not a separate species of salmon. (ODFW) See # 53. Expanded opportunity. Provides exception to salmon length rules to allow harvest of “mini-jack” salmon in the Umatilla River. Mini-Jack salmon are salmon less than 15 inches in length that do not migrate to the ocean, but rear in mainstem rivers and return with adult spawning runs. (ODFW)
7	5 Key Issue	<u>Two-Pole validation</u>	<u>A validation which allows an angler with a current resident or nonresident fishing license to angle with two poles or lines when angling on standing waterbodies which include lakes, ponds, and reservoirs but exclude reservoirs on the Columbia River and the Snake River below Hells Canyon Dam.</u>	5. New definition. A Two-Pole Validation was approved by the 2009 Legislature as part of ODFW’s 2009-11 Budget. Rules related to this legislation are needed to define where Two-Pole Validation angling is allowed. (ODFW)

STATEWIDE REGULATIONS

2009 Reg Page	Proposal Number	General (Statewide) Regulations	Rationale
7	5 Key Issue	<p>General Restrictions The following activities are <i>unlawful</i>:</p> <ol style="list-style-type: none"> 1. Use of more than one rod or one line when angling for any fish except: <ol style="list-style-type: none"> a. A person with a current two-pole validation may use two poles or lines when angling on standing waterbodies which include lakes, ponds, and reservoirs but exclude reservoirs on the Columbia River and the Snake River below Hells Canyon Dam. b. Any number of rods or lines are allowed outside of three miles from shore when angling for offshore pelagic species and only if no species other than offshore pelagic species have been retained. Rods or lines must be closely attended. 2. Use of gurdies, winches or reels affixed to a boat to land fish (rod or line must be held in hand) except when used for retrieving crab rings or pots. 3. Sale or purchase of fish or shellfish, or parts thereof, which have been taken for personal use. Except the skeletal remains of ocean food fish may be sold; and eggs from ocean-caught salmon may be sold to a licensed wholesale fish or bait dealer. 4. (Note: General Restrictions 4-20 not listed, no changes in rules.) 	<p>5. New Opportunity. New rules needed to specify that use of two poles are legal for angling in standing waterbodies and three tip-ups are legal for ice-fishing.</p>

STATEWIDE REGULATIONS

2009 Reg Page	Proposal Number	Species	Harvest Method	Restrictions	Rationale
		Harvest Methods, Hours and Restrictions 1. Fish, Shellfish or marine invertebrates may be taken only by the method or gear during hours listed below.			
8	6	Species	[Harvest Method] Angling/Harvest Method	Restrictions	6. Clarification. Not all angling involves taking, but restrictions still apply in all cases. Including "Angling" covers anglers who catch-and-release. The definition of angling "To take or attempt to take fish for personal use by hook and line" includes attempt which would cover all actions related to angling including catch-and-release angling. (ODFW, OSP)

NORTHWEST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Species Name	Catch Limits	Length Limits and Other Specifications	Seasons	Rationale
24	7 8	Salmon and Steelhead:	In the aggregate: 2 adult <i>salmon</i> or <i>steelhead</i> per day, 20 per year, 5 <i>jack salmon</i> per day, 2 daily <i>jack</i> limits in possession.	<ul style="list-style-type: none"> • See exceptions to the <i>Chinook salmon</i> catch limit under Nehalem, Nestucca and Tillamook bays and tributaries, and Yachats River. • Adipose fin-clipped <i>coho salmon</i>, pink salmon, and sockeye salmon may be retained as part of the adult and <i>jack salmon</i> daily bag limit in all waters that are currently open to angling for <i>Chinook salmon</i> or <i>steelhead</i>. • Hatchery releases of <i>coho salmon</i> occur in the Trask River, North Fork Nehalem River, Big Creek, Klaskanine River and Youngs Bay. • Closed to <i>chum salmon</i> (including <i>jacks</i>) unless noted under Special Regulations. • Note: Changes to <i>salmon</i> regulations for the ocean, bays, coastal rivers and the Columbia River system (page 91) are printed in May and are available at ODFW offices, from license agents, or on the web at www.dfw.state.or.us. Check for new regulations before you fish. • See Special Regulations in NW Zone to determine where harvest of any <i>Chinook salmon</i> is allowed. Harvest of nonadipose fin-clipped <i>steelhead</i> and nonadipose fin-clipped <i>coho salmon</i> is prohibited in the NW Zone except as allowed under Special Regulations for Siltcoos and Tahkenitch lakes. There is no annual limit on adipose or otherwise fin-clipped <i>salmon</i> or adipose fin-clipped <i>steelhead</i> as long as the appropriate number of Hatchery Harvest Tags have been purchased to record the catch. • Angling restricted to artificial flies and lures in streams above tidewater May 22 [23] – Aug. 31. See exceptions under Special Regulations where use of bait is allowed. 	Closed in all waters unless noted by species under Special Regulations .	<p>7. Clarification. There are no established pink or sockeye salmon populations on the Oregon Coast; however, strays of both species are occasionally caught by anglers in coastal river basins. Anglers should be allowed to retain these species when caught. (ODFW Coastal Fish District Biologists)</p> <p>8. Clarifies locations where there are hatchery <i>coho salmon</i> releases by adding the Trask River. (Chris Knutsen)</p>

NORTHWEST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
26	9	Big Creek (Clatsop Co.) 2. Downstream from the suspended cable	<ul style="list-style-type: none"> • Closed Sept. 1 - 30. • Open for adipose fin-clipped <i>steelhead</i> Jan. 1 – Aug. 31 and Oct. 1 – Dec. 31. • Open for adipose fin-clipped spring <i>Chinook salmon</i> Jan. 1 – July 31. • Open for fall <i>Chinook salmon</i> Aug. 1 – 31 and Oct. 1 – Dec. 31. • Open for adipose fin-clipped coho salmon as per Zone Regulations. • Angling from the Big Creek railroad trestle bridge near mouth closed Sept. 1 – 30. • Use of bait allowed. 	9. Simplification. Eliminates rule no longer needed to clarify marked coho salmon rule adopted in 2009. (Chris Knutsen)
27	10	Fishhawk Lake (near Birkenfield on the Nehalem River, Columbia Co.)	<ul style="list-style-type: none"> • Open May 22 [23]-Oct. 31, 2 trout per day, 8 inch minimum length. [catch and release only]. • Angling restricted to artificial flies and lures only May [23] 22 – August 31. 	10. Error Correction and inadvertent restriction: Fishhawk is an in-river impoundment of the Nehalem River and should be under NW Zone trout rules which were changed in 2009. (Chris Knutsen)
27	11 12	Klaskanine River upstream from the confluence with Youngs River, North Fork upstream to Klaskanine Hatchery angling deadline and South Fork upstream to the first Falls (approximately Rivermile 4.7) (Clatsop Co.)	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> the entire year. • Open for fin-clipped spring <i>Chinook salmon</i> Jan. 1 – July 31. • Open for fall <i>Chinook salmon</i> Aug. 1 – Dec. 31. • Open for adipose fin-clipped coho salmon as per Zone Regulations. • Closed on the North Fork from 200 feet below hatchery holding pond fishway upstream to hatchery dam. • North Fork Klaskanine is closed to salmon and steelhead angling upstream of Olney Lane Bridge (near fire station) from Sept. 1 – Oct. 15. • South Fork Klaskanine is closed to salmon and steelhead angling from Sep. 1 – Oct. 15. • Use of bait allowed. 	11. Simplification. Eliminates rule no longer needed to clarify marked coho salmon rule adopted in 2009. (Chris Knutsen) 12. Allow for sufficient hatchery SAB Fall Chinook broodstock collection, eliminate an inadvertent restriction for trout fishery. (Chris Knutsen)
28	13	Necanicum River (Clatsop Co.) downstream of Hwy 53 bridge at Necanicum Jct., including Neawanna Creek tidewater downstream of 12 th Avenue bridge	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> Jan. 1 – March 31 and Sept. 1 – Dec. 31. • Open for <i>Chinook salmon</i> Sept. 1 – Dec. 31. • Closed to angling for coho salmon. • Open for marine fish and other fish entire year below the 12th Avenue bridge located in Seaside. See Marine Zone (pages 100-103). 	13. Inadvertent Restriction: This area should be open under the NW Zone Rule allowing harvest of adipose fin-clipped during steelhead and fall Chinook salmon seasons (Chris Knutsen)

NORTHWEST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
28	14	Nehalem Bay up to Miami River – Foley Creek Road bridge (Tillamook Co.)	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> entire year. • Open for spring <i>Chinook salmon</i> April 1 – July 31. • Open for fall <i>Chinook salmon</i> Aug. 1 – Dec. 31; 2 adult <i>Chinook salmon</i> per day, 4 per any 7 consecutive days, 10 per season in aggregate from all Nehalem, Tillamook, and Nestucca bays and streams. • [Open for adipose fin-clipped <i>coho salmon</i> inland from the tips of the jetties upstream to the confluence of the North Fork Nehalem River as per Zone Regulations] 	14. Simplification. Eliminates rule no longer needed to clarify marked coho salmon rule adopted in 2009. (Chris Knutsen)
28	Key Issue 15	Nehalem River: 1. Mainstem upstream from Miami River-Foley Creek Road bridge including tidewater	<ul style="list-style-type: none"> • Restricted to artificial flies and lures May 22 [23] – Aug. 31 above tidewater (at upstream end of Mohler Sand and Gravel). • Closed upstream from Hwy 26 bridge located at Elsie Sept. 1 – Oct. 31. • Open for adipose fin-clipped <i>steelhead</i> upstream to Hwy 26 bridge at Elsie entire year. • Open for adipose fin-clipped <i>steelhead</i> upstream from Hwy 26 bridge at Elsie Jan. 1 – March 31, May 22 [23] – Aug. 31 and Nov. 1 – Dec. 31. • Open for spring <i>Chinook salmon</i> May 22 [23] – July 31. • Open for fall <i>Chinook salmon</i> Aug. 1 – Dec. 31; 2 adult <i>Chinook salmon</i> per day, 4 in any consecutive days, 10 per season in aggregate from all Nehalem, Tillamook, or Nestucca bays and streams. • Closed to angling for <i>Chinook salmon</i> above the railroad bridge (RM 22.3) located at the mouth of the Salmonberry River the entire year. 	15. Conservation. To allow increased spawning escapement of summer and fall Chinook in the Nehalem basin. These stocks are currently at historically low abundance and conservation actions are needed to reduce harvest. It is likely that Chinook harvest in the Nehalem basin will be severely restricted by temporary rule this year (2009), but the District wishes to begin pursuing incremental adjustments to the permanent rule to allow additional conservation during years where temporary rules are not adopted. This proposal still allows ample bank angling opportunity for Chinook from the Foss Road section of river and will restrict harvest on dark, mature fish in the upper river. (Chris Knutsen)

NORTHWEST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
29	18	Sand Lake (Tillamook Co.)	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> Jan. 1 – March 31 and May 22 <u>23</u>– Dec. 31. • Open for <i>Chinook salmon</i> May 23 – Dec. 31. 	18. Conservation. Few Chinook salmon are caught in Sand Lake in most years. This is an extremely small population of fall Chinook that probably can not sustain much harvest, particularly under low abundance conditions. Conservative management approach is prudent in this basin. (Chris Knutsen)
29	19	Siltcoos Lake (Lane/Douglas Co.)	<ul style="list-style-type: none"> • Upstream from the Hwy. 101 bridge and downstream of the railroad trestle on the Maple Creek arm and the Fivemile Road crossing on the Fiddle Creek arm. • Open for <i>coho salmon</i> Oct. 1 – Dec. 31. • [Bag limit one adult salmon and one jack salmon per day and 5 total per year.] • <u>Bag limit one non fin-clipped adult <i>coho salmon</i> and one non fin-clipped jack <i>coho salmon</i> per day and 5 total non fin-clipped adult salmon per year in aggregate with other NW and SW Zone waterbodies.</u> 	19. Clarification. The intent for these two lakes and other coastal wild coho fisheries are that the seasonal bag limit of 5 wild adults applies to all waterbodies in aggregate. The regulation change will also be needed if/when additional wild coho fisheries are implemented. (Bob Buckman)
30	20	Tahkenitch Lake (Douglas Co.)	<ul style="list-style-type: none"> • Upstream from the Hwy. 101 bridge and downstream of the first road crossing on the Leitell Creek arm and the ODFW marker at the bridge on the 059 Road just west of the Douglas County Road 49. • Open for <i>coho salmon</i> Oct. 1 – Dec. 31. • [Bag limit one adult salmon and one jack salmon per day and 5 total per year.] • <u>Bag limit one non fin-clipped adult <i>coho salmon</i> and one non fin-clipped jack <i>coho salmon</i> per day and 5 total non fin-clipped adult salmon per year in aggregate with other NW and SW Zone waterbodies.</u> 	20. Clarification. The intent for these two lakes and other coastal wild coho fisheries are that the seasonal bag limit of 5 wild adults applies to all waterbodies in aggregate. The regulation change will also be needed if/when additional wild coho fisheries are implemented. (Bob Buckman)

NORTHWEST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
31	21	Tillamook Bay (Tillamook Co.)	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> entire year. • Open for adipose fin-clipped spring <i>chinook salmon</i> March 15 - July 31 in the Tillamook Spring Chinook Terminal Area (Ocean) from the jetty tips seaward to the 15 fathom line offshore from Twin Rocks (45° 35' 49" N. lat.) to Pyramid Rock (45° 29' 49" N. lat) (See Note Below). • Open for adipose fin-clipped spring <i>chinook salmon</i> April 1 - July 31 in Tillamook Bay inside the jetty tips. • Open for fall <i>chinook</i> Aug. 1 – Dec 31. 2 adult <i>chinook salmon</i> per day, 4 in any 7 consecutive days, 10 per season in aggregate from all Nehalem, Tillamook, and Nestucca bays and streams. • [Open for adipose fin-clipped coho salmon inland of the tips of the jetties to the Hwy 101 bridges over the Trask and Wilson rivers and the Burton Bridge over the Tillamook River as per <u>Zone Regulations.</u>] • NOTE: Changes to salmon regulations in the Near Shore Ocean and Tillamook Terminal Areas are printed in May and are available at ODFW offices, from license agents or on the web at www.dfw.state.or.us. Check for new regulations before you fish. 	21. Simplification. Per the 2009 Zone Rule, retention of adipose fin-clipped coho salmon are allowed in all waters open to Chinook or steelhead. This entry was initially placed in special regulations to identify locations where there were hatchery coho salmon releases. This information also placed in Zone Regulations. (Chris Knutsen)
30	22	Tillamook River (Tillamook Co.): 1. Tidewater	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> entire year. • Open for adipose fin-clipped spring <i>Chinook salmon</i> April 1 – July 31. • Open for fall <i>Chinook salmon</i> Aug. 1 – Dec. 31 except closed for adult <i>Chinook salmon</i> upstream from Hwy 101 bridge Aug. 1 – Sept. 15. Two adult <i>Chinook salmon</i> per day, 4 per any 7 consecutive days, 10 per season in aggregate from all Nehalem, Tillamook, and Nestucca bays and streams. • [Open for adipose fin-clipped <i>steelhead</i> Jan. 1 – March 31 and May 23 – Dec. 31.] 	22. Error correction. Duplicate, incorrect steelhead rule added to this section. Should have been in Tillamook Section 2. (Robert Bradley)
30	23	Tillamook River (Tillamook Co.): 2. Mainstem, upstream from tidewater	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> Jan. 1 – March 31 and May 23 – Dec. 31. • Open for fall <i>Chinook salmon</i> Aug. 1 – Dec. 31; 2 adult <i>Chinook salmon</i> per day, 4 per any 7 consecutive days, 10 per season in aggregate from all Nehalem, Tillamook, and Nestucca bays and streams. 	23. Error correction. Omitted the steelhead rule from this waterbody. (Robert Bradley)
30		Trask River (Tillamook Co.): 1. Mainstem up to North	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> the entire year. • Open for spring <i>Chinook salmon</i> April 1 – July 31. • Open for fall <i>Chinook salmon</i> Aug. 1 – Dec. 31; except closed for adult 	24. Simplification. Simplification. Eliminates rule no longer needed to

NORTHWEST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
	24 25	and South forks, (at Trask County Park) including tidewater.	<p><i>Chinook salmon</i> upstream from Hwy 101 bridge Aug. 1 – Sept. 15. 2 adult <i>chinook salmon</i> per day, 4 in any 7 consecutive days, 10 per season in aggregate from all Nehalem, Tillamook, and Nestucca bays and streams.</p> <ul style="list-style-type: none"> • [Open for adipose fin-clipped coho salmon as per Zone Regulations.] • Use of bait allowed. • Closed from marker below Dam Hole [located at Milepost 7] upstream to Blue Ridge Creek. Sept. 1 – Nov. 30. The Dam Hole is located near milepost 7 on the Trask River Road. • Closed from Gold Creek, at hatchery, 200 feet upstream and 900 feet downstream June 1 – Nov. 30. 	<p>needed to clarify marked coho salmon rule adopted in 2009. This entry was initially placed in special regulations to identify locations where there were hatchery coho salmon releases. This information also placed in Zone Regulations. (Chris Knutsen)</p> <p>25. Clarification, requested by OSP. Current wording leads some people to think that the marker is at milepost 7, not below the Dam Hole. Need to make clear that the entire Dam Hole is closed during this time frame. (Chris Knutsen)</p>
31	26	Young's River	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> the entire year. • Open for <i>spring Chinook salmon</i> Jan. 1 – July 31. • Open for <i>fall Chinook salmon</i> Aug. 1 – Dec. 31. • [Open for adipose fin-clipped coho salmon as per Zone Regulation] • Use of bait allowed. 	<p>26. Simplification. Eliminates rule no longer needed to clarify marked coho salmon rule adopted in 2009. (Chris Knutsen)</p>

SOUTHWEST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Species Name	Catch Limits	Length Limits and Other Specifications	Seasons	Rationale
38	27	Salmon and Steelhead:	In the aggregate: 2 adult <i>salmon</i> or <i>steelhead</i> per day, 20 per year, 5 jack salmon per day, 2 daily jack limits in possession.	<ul style="list-style-type: none"> • See Special Regulations in SW Zone to determine where harvest of any <i>Chinook salmon</i> is allowed. There is no annual limit on adipose fin-clipped <i>steelhead</i> as long as the appropriate number of Hatchery Harvest Tags have been purchased to record the catch. • Only adipose fin-clipped <i>steelhead</i> may be kept, except as noted under Special Regulations for the mainstem Chetco, Elk, Pistol, Rogue, Sixes and Winchuck rivers and Hunter and Euchre creeks. • Where allowed, no more than a total of 1 per day and 5 per year nonadipose fin-clipped <i>steelhead</i> may be taken per year statewide. • NOTE: Changes to <i>salmon</i> regulations for the ocean, bays, coastal rivers and the Columbia River system (page 91) are printed in May and are available at ODFW offices, from license agents or available on the web. Check for new regulations before you fish. • Adipose fin-clipped <i>coho salmon</i>, pink salmon, and sockeye salmon may be retained as part of the adult and jack <i>salmon</i> daily bag limit in all waters that are currently open to angling for <i>Chinook salmon</i> or <i>steelhead</i>. • Angling restricted to artificial flies and lures in streams above tidewater May 22 [23] – Aug. 31. See exceptions under Special Regulations where use of bait is allowed. 	Closed in all waters unless noted by species under Special Regulations.	27. Clarification. There are no established pink or sockeye salmon populations on the Oregon Coast; however, strays of both species are occasionally caught by anglers in coastal river basins. Anglers should be allowed to retain these species when caught. (ODFW Coastal Fish District Biologists)

SOUTHWEST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
40	28	<p>Coquille River (Coos Co.)</p> <p>1. Inland from the tips of the jetties upstream to the South Fork, including tidewater.</p>	<p>Open for <i>Chinook salmon</i> and adipose fin-clipped <i>steelhead</i> the entire year.</p>	<p>28. Clarification. The addition of the words "including tidewater" is a source of confusion to some anglers. It is intended to mean tidewater in the Coquille river, not the side tributaries. When water backs up into a side tributary, the waterbody the angler is angling in is the tributary, of the Coquille River, especially with a tidegate in place. (Mike Gray)</p>
42	29	<p>Rogue River (Curry/Josephine/Jackson Co.):</p> <p>2. Hog Creek boat landing to Gold Ray Dam</p> <p>(Just Special Gear Restrictions and Closures listed).</p>	<p>Special Gear Restrictions and Closures:</p> <ul style="list-style-type: none"> • Use of bait allowed in mainstem Rogue River. • In addition to the hook and weight regulations on page 8, any attached weight may be no more than six feet above the lowermost hook. • [Closed to all angling from Savage Rapids Dam downstream to markers located downstream from lowest fishway entrance (Rivermile 107).] • Closed to all angling from the Gold Hill municipal water intake downstream to Gold Hill boat landing (RM 121). • Closed to all angling from Gold Ray Dam downstream to markers located downstream from lowest fishway entrance (RM 126). 	<p>29. Simplification, clarification. The Grants Pass Irrigation District and Bureau of Reclamation are implementing their preferred alternative to build a pump station and remove a significant portion of Savage Rapids Dam. Restored fish passage is expected to be completed in 2009. (Dan Van Dyke)</p>

WILLAMETTE ZONE REGULATIONS

2009 Reg Page	Proposal Number	Species Name	Catch Limits	Length Limits and Other Specifications	Seasons	Rationale
48	31	Salmon and Steelhead	In the aggregate: 2 adult <i>salmon</i> or <i>steelhead</i> per day, 20 per year. 5 Jacks per day, 2 daily jack limits in possession, with the exception that in the Willamette River and tributaries of the Willamette Basin above Willamette Falls, 1 additional adipose fin-clipped <i>steelhead</i> may be retained per day for a total aggregate of 3 adult fish harvested daily.	<ul style="list-style-type: none"> • Angling is restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed. • NOTE: Changes to <i>salmon</i> regulations for the Columbia River system including changes to the Willamette River system are printed in May and available at ODFW offices, from license agents, or on the web at www.dfw.state.or.us. Check for new regulations before you fish. • Harvest of nonadipose fin-clipped <i>salmon</i> or <i>steelhead</i> is prohibited in the Willamette Zone with the exception of <i>coho salmon</i> and summer steelhead above Willamette Falls as noted under Special Regulations. Daily limit for unmarked summer steelhead is 2 fish per day, and Annual limit 20 per year. • There is no annual limit on adipose fin-clipped <i>salmon</i> or adipose fin-clipped <i>steelhead</i> as long as the appropriate number of Hatchery Harvest Tags have been purchased to record the catch. 	Closed in all waters unless noted by species under Special Regulations .	31. Housekeeping and Clarification. Rule change need to clarify annual daily and annual harvest limits for unmarked naturalized summer steelhead above Willamette Falls. The standard 2 steelhead per day and 20 per year rule would apply. Annual catch limit would be a maximum of 20 unmarked summer steelhead per year since these fish must be recorded on a Combined Angling Tag (20 salmon and steelhead maximum), not a Hatchery Harvest Tag.
49	32	Sturgeon	1 per day, 5 per year.	<ul style="list-style-type: none"> • Closed to retention of green sturgeon. • Minimum fork length 38 inches, maximum fork length 54 inches. • All oversize, undersize, and unwanted legal size <i>sturgeon</i> must be immediately released unharmed into the water. • Only one single-point, barbless hook may be used on <i>sturgeon</i>. • Oversize <i>sturgeon</i> cannot be removed totally or in part from the water. • Angling restricted to artificial flies and lures in streams. See exceptions under Special Regulations where use of bait is allowed. • NOTE: <i>Sturgeon</i> fisheries are managed on a quota basis. Anglers ...guidelines. 	Lakes: Open all year. Streams: Open during trout, salmon or steelhead seasons, except mainstem Willamette River and sloughs and tidewater areas of Columbia River tributaries downstream from Bonneville Dam are open all year.	32. Conservation and Clarification. Current OAR (adopted by the OFWC in February) states sturgeon are not legal to retain in the Columbia River or Willamette but the Regulation pamphlet does not say anything about green sturgeon retention in the Willamette. (John North)

WILLAMETTE ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
49 New Entry	33	<p>Bear Creek (tributary to Pudding River) upstream from Shorty's Pond which is located in Ivor Davies Park in the City of Molalla</p>	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>trout</i> May [23] 22 – Oct. 31. • 5 adipose fin-clipped <i>trout</i> per day, no minimum length. • Use of bait allowed 	<p>33. New angling opportunity. Stream reach located immediately upstream of a community pond (Shorty's Pond) stocked with adipose fin-clipped trout. Some of the stocked trout move upstream and would otherwise not be harvestable due to zone regulations that allow only catch and release fishing in streams. (Todd Alsbury)</p>
	<p>34 Key Issue 35</p>	<p>Clackamas River (Clackamas Co.) 1. From mouth upstream to River Mill Dam [North Fork Dam]</p>	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>trout</i> May [23] 22 – Oct. 31, 2 trout per day, and no minimum length. • Open for adipose fin-clipped <i>Chinook salmon</i>, adipose fin-clipped coho salmon, and adipose fin-clipped <i>steelhead</i> entire year. <ul style="list-style-type: none"> • [Open for adipose fin-clipped <i>coho salmon</i> Aug. 1-Oct. 31.] • [No angling from a floating device between River Mill Dam and hatchery intake structure.] • [No angling from a floating device between River Mill Dam and the yellow markers located approximately 200 feet upstream of the hatchery intake structure.] • Use of bait allowed. 	<p>34. Expanded harvest opportunity. Allow harvest of surplus hatchery fish that are available after current coho season closes. Eagle Creek Hatchery regularly sees returns that exceed broodstock needs. (Todd Alsbury)</p> <p>35. Clarification. New section designations allow for clearer delineation of specific sections of river. New section designation will allow for consistency with proposed changes to harvest card location codes. Reduces confusion with regulation that allows harvest of 2 trout per day in the Clackamas River from the mouth upstream to North Fork Dam. (Todd Alsbury)</p>

WILLAMETTE ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
	<p>35 Continued</p> <p>36</p>	<p>Clackamas River (Clackamas Co.) 2. River Mill Reservoir up to [Hwy 211 Bridge (Estacada—Lake)] <u>Cazadero Dam</u></p>	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>trout</i> May [23] 22 - Oct. 31, 5 trout per day, 8-inch minimum length. • Open for adipose fin-clipped <i>Chinook</i> salmon and adipose fin-clipped <i>steelhead</i> entire year. • Trout over 20 inches are considered steelhead. • Open for adipose fin-clipped <i>coho salmon</i> Aug 1-Oct. 31. • No angling from a floating device between River Mill Dam and ODFW markers located approximately 100 feet upstream of hatchery intake structure. • No angling between markers 400 feet upstream and 100 feet downstream from the Faraday Powerhouse June 16-Oct 31. • No angling from the entrance of the fishway/trap at Cazadero Dam downstream to yellow deadline markers (approximately 275 feet) • Use of bait allowed 	<p>35 continued. Clarification. Reduce confusion with regulation that allows retention of 1 trout over 20 inches per day. Anglers may think they do not need to mark a 20" trout on their harvest card and rainbow trout over 20" are considered steelhead in streams. River Mill is a reservoir, not a stream, but should be considered a stream for purposes of salmon and steelhead angling regulations. (Todd Alsbury)</p> <p>36. Expanded harvest opportunity. Proposal to change the deadline for floating devices is intended to allow boat anglers an ability to fish the hole adjacent to the McIver Park boat launch. The changes increase angling opportunity without creating conservation concerns. (Todd Alsbury)</p>
50	<p>35 Continued</p>	<p>Clackamas River (Clackamas Co.) 3. Mainstem and tributaries not listed upstream from <u>Cazadero [North Fork] Dam.</u></p>	<ul style="list-style-type: none"> • For the length of the Three Lynx Powerhouse (111 feet), no angling from a floating device or from the west shore. • No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to <i>brook trout</i>. 	<p>35 continued. Clarification. Redefine Clackamas River sections. (Todd Alsbury)</p>

WILLAMETTE ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
50	37	Cougar Reservoir	<ul style="list-style-type: none"> • <i>Salmon</i> less than 24 inches in length are considered <i>trout</i>. • No limit on size or number of warmwater game fish. 	37. Conservation. Largemouth bass were trapped in the reservoir outfall during this past winter for the first time on record. We are proposing this regulation to slow the growth of warmwater fish populations by removing all catch restrictions in Cougar Reservoir. (ODFW)
51	38	Eagle Creek (Clackamas Co.) up to markers 200 feet below hatchery ladder outlet (Clackamas Basin near Estacada)	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>Chinook</i> and coho salmon and adipose fin-clipped <i>steelhead</i> entire year • [Open for adipose fin-clipped coho Aug. 1 - November 30] • Closed from 200 feet upstream to 300 feet downstream from fish ladder located ½ mile below Eagle Fern Park. • Use of bait allowed 	38. Expanded opportunity. Allow harvest of surplus hatchery fish that are available after current coho season closes. (Todd Alsbury)
51	39	EE Wilson Pond (Benton County)	<ul style="list-style-type: none"> • Open Feb. 1 – Sep 30. • [Angling allowed only by free self-service permit available at EE Wilson Pond check station.] 	39. Simplification. Management area staff has determined that the permit requirement is no longer necessary. Elimination of the requirement will conserve limited agency resources. (Steve Mamoyac)
52	40	Luckiamute River (Benton and Polk Co.) 1. Mainstem and tributaries not listed	<ul style="list-style-type: none"> • Open for <i>trout</i> May [23] 22 – Oct 31, 2 <i>trout</i> per day, 8 inch minimum length. • Angling restricted to artificial flies and lures only. 	40. Housekeeping, clarification. Tributaries should have been included. (Steve Mamoyac)

WILLAMETTE ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
52	41	McKenzie River (Lane/Linn Co.): 1. Mouth upstream to Hayden Bridge	<ul style="list-style-type: none"> • Open for <i>trout</i> entire year, catch and release only as per Zone Regulations. • Open for adipose fin-clipped Chinook salmon and [for] adipose fin-clipped <i>steelhead</i> entire year. • Open for non-adipose fin-clipped <i>steelhead</i> greater than 24 inches in length entire year. • Open for adipose fin-clipped Chinook salmon Jan. 1 – Aug. 15. • Angling restricted to artificial flies and lures as per Zone Regulations. 	41. Conservation, simplification, and new non-controversial angling opportunity. Proposed year-long Chinook salmon season provides consistency with salmon regulations elsewhere in the upper basin. Addresses need to harvest a higher percentage of hatchery-reared Chinook salmon. (Jeff Ziller)
52	42	McKenzie River 2. Hayden Bridge upstream to Forest Glen boat ramp near Blue River including Leaburg Lake (see separate entry for Waltherville Canal)	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> entire year. • Open for non-adipose fin-clipped <i>steelhead</i> greater than 24 inches entire year. • Open Jan. 1 – April 23 [24], catch and release for <i>trout</i>. • Angling restricted to artificial flies and lures Jan. 1 – Apr. 23 [24]. • Open April 24 [25] – Dec. 31, 5 adipose fin-clipped <i>trout</i> per day, no minimum length. • Use of bait allowed April 24 [25]– Dec. 31. • Open for adipose fin-clipped <i>Chinook salmon</i> entire year [Jan. 1 – Aug. 15] from Hayden Bridge to the ODFW markers, approximately 200 feet below the fishways at Leaburg Dam. • Closed within: <ol style="list-style-type: none"> a. The Leaburg powerhouse tailrace. b. 200 feet downstream of Leaburg Dam to 200 feet upstream of Leaburg Dam. 	42. Conservation, simplification, and new non-controversial angling opportunity. Proposed year long Chinook salmon season provides consistency with salmon regulations elsewhere in the upper basin. Addresses need to harvest a higher percentage of hatchery-reared Chinook salmon in the lower McKenzie River. (Jeff Ziller)
53	43	Mt. Hood Pond {(Clackamas Co.)} (Multnomah Co.)	<ul style="list-style-type: none"> • Angling restricted to youth age 17 and under or holders of one of the Disabled Anglers permits from April 1 – Aug 31. 	43. Correction. Wrong County listed. Anglers are not complying with Youth Angling Rule stating that Mt. Hood Pond is not in Clackamas Co. Adding allowances for Disabled Anglers at Mt. Hood pond would be consistent with rules at Canby Pond and would maintain disabled angler access at this location. (Todd Alsbury)

WILLAMETTE ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
53	44	St. Louis Ponds (Marion Co.)	<ul style="list-style-type: none"> • One bass per day. • [Angling from a floating device prohibited on Pond #1 and Pond #3. Angling from personal float tube (no boats allowed) allowed on all other ponds. See diagram of ponds posted at St. Louis Ponds and on ODFW's website at http://www.dfw.state.or.us/easy_angling/willamette/st_louis.asp.] • Closed from 1 hour after sunset until 1 hour before sunrise. 	44. Simplification. Rules allowing use of personal floating devices were adopted in 2009. At that time, there was interest to revisit this rule to see if any restrictions on floating devices could be removed on St. Louis Ponds. (ODFW)
54	45	Sandy River 1. Mainstem upstream to ODFW Markers at the mouth of Salmon River	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> entire year. • Open for adipose fin-clipped <i>Chinook salmon</i> Feb. 1 – Oct. 31. • Open for adipose fin-clipped <i>coho salmon</i> entire year. [salmon Aug. 1 – Oct. 31.] • Closed for harvest of <i>smelt</i>. • Closed within 200 feet of Chinook salmon spawning areas located in Oxbow Park where posted by ODFW markers Sept. 16 – Nov. 15. • No angling from a floating device upstream from a point that is 200 feet below the Oxbow Park boat ramp. • Use of bait is allowed. 	45. Expanded angling opportunity. Allow harvest of surplus hatchery fish that are available after current coho season closes. (Todd Alsbury)
54	46	[Three Sisters Wilderness, all streams in the Willamette National Forest Portion (Lane Co.)]	<ul style="list-style-type: none"> • [Open for trout in streams April 25 – Oct. 31.] • [No limit on size or number of <i>brook trout</i> taken. Catch limits on other <i>trout</i> species do not apply to brook trout.] • [Use of bait allowed.] 	46. Simplify regulations, delete entry. Unnecessarily complicated regulation that has resulted in some confusion for high lakes anglers; holdover from time of diploid brook trout stocking in high lakes. (Jeff Ziller)
55	47	Yamhill River (Yamhill Co.) 2. South Yamhill from confluence with North Yamhill upstream to mouth of Rock Creek near the town of Grande Ronde	<ul style="list-style-type: none"> • Open May [23] 22 – Oct 31, 5 adipose fin-clipped <i>trout</i> per day, no minimum length, artificial flies and lures only. • Angling restricted to artificial flies and lures. • Open for <i>coho salmon</i> Aug. 1 – Oct. 31. 	47. Clarification. There are two Rock Creeks in this immediate area. The Rock Creek referenced in this rule is near the town of Grande Ronde. Map also corrected. (Tom Murtagh)

CENTRAL ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
62	Key Issue 48	East Lake (Deschutes Co.)	<ul style="list-style-type: none"> • Open April [25] 24 – Oct. 31. • 16 inch maximum length on brown trout. All brown trout over 16 must be released unharmed. • See Health Advisory on page 18. 	48. Health Safety. The Department of Human Services has issued a health advisory for anglers to avoid eating any brown trout over 16 inches from East Lake. Rule provides consistency with Trophy Fish Management objective East Lake brown trout. (Brett Hodgson)
63	49	Ochoco Creek upstream to Ochoco Dam (Crook Co.)	<ul style="list-style-type: none"> • Open entire year [Jan. 1 – May 23 and Nov. 1 – Dec. 31], 2 trout per day, 8-inch minimum length. • Angling restricted to artificial flies and lures [Jan. 1 – May 23 and Nov. 1 – Dec. 31]. • [Open May 23 – Oct. 31, 5 trout per day, 8-inch minimum length.] • [Use of bait allowed May 23 – Oct. 31] 	49. Conservation. Creek is no longer stocked with hatchery trout and proposed daily bag limit is consistent with other area streams dependent upon natural production. Protects steelhead presmolts and smolts from incidental mortality associated with the use of bait. (Brett Hodgson)
63	50	Prineville Reservoir (Crook Co.)	<ul style="list-style-type: none"> • <i>Largemouth</i> and <i>smallmouth bass</i>, 15-inch [minimum] maximum length, only one of which may be a <i>largemouth bass</i>. 	50. Error Correction. Rule adopted in 2009 was a maximum 15-inch length limit for Prineville Reservoir. (Brett Hodgson)

NORTHEAST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
69	51	<p>John Day River (Numerous Eastern Oregon Counties): [[Gilliam/Wheeler/Grant Co.]] 1. John Day Arm and River from main line railroad bridge near mouth upstream to Tumwater Falls</p>	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> Jan. 1 – March 31 and June 16 - Dec. 31. • Open for Warmwater Game Fish entire year except as noted below. • Closed from ODFW marker ¼ mile downstream from Tumwater Falls to 200 feet above the falls, which are located near the head of John Day Arm, except open for species other than <i>salmon</i> and <i>steelhead</i> April 1 – Aug. 31. 	<p>51. Clarification and Enforcement. By excluding the remainder of the counties the John Day flows through, some fishermen interpret those counties as having separate regulations from the 3 listed. Since the John Day regulations encompass parts of 10 different counties, all of them can be included by stating “Numerous Eastern Oregon Counties” (Jeff Neal)</p>
69	52	<p><u>Big Sheep Creek (Wallowa County) Mouth upstream to the mouth of Little Sheep Creek</u></p>	<ul style="list-style-type: none"> • <u>Open for adipose fin-clipped steelhead Jan. 1 – April 15 and Sept. 1 – Dec. 31</u> • <u>Only adipose fin-clipped trout may be kept.</u> 	<p>To expand the area open to steelhead anglers, increase sport harvest opportunity, reduce hatchery surplus and focus trout harvest to remove adipose clipped residual steelhead smolts. A recent land trade allows unimpeded public access to approximately 70% of the proposed three mile extension area. A hatchery facility releases smolts and collects returning adults in Little Sheep Creek approximately three miles above the proposed new upstream steelhead angling deadline. Steelhead and trout rule consistent with other waters open to steelhead angling in the Imnaha basin. (Brad Smith)</p>

NORTHEAST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
70	53 54	<p>Umatilla River (Umatilla Co.):</p> <p>1. From Hwy 730 bridge upstream to reservation boundary located upstream from Hwy 11 bridge at Pendleton</p>	<ul style="list-style-type: none"> • Open for adipose fin-clipped <i>steelhead</i> Jan. 1 – April 15 and Sept. 1 – Dec. 31. • Open for spring <i>Chinook</i> angling: <ol style="list-style-type: none"> 1. From Hwy 730 bridge upstream to Three Mile Dam, April 16 – May 22 June 13. 2. From Three Mile Dam upstream to reservation boundary located upstream from Hwy 11 Bridge at Pendleton, April 16 – June 30. 3. Only adipose fin-clipped spring <i>Chinook salmon</i> may be kept. 4. Spring <i>Chinook salmon</i> bag limit, 2 adults and 5 jacks per day and 10 adults per year. • Open for <i>coho salmon</i> and jack fall <i>Chinook</i> salmon Sept. 1 – Nov. 30. • Salmon less than 15 inches may be harvested, 5 per day, 8 inch minimum length, during coho and fall Chinook salmon seasons in addition to adult and jack salmon limits. • Daily catch limit 2 <i>coho</i> adults and a total of 5 <i>coho</i> or fall <i>chinook</i> jacks in the aggregate. • Daily catch of adult <i>salmon</i> and adipose fin-clipped <i>steelhead</i> not to exceed 2 fish in the aggregate with the exception that 1 additional adipose fin-clipped <i>steelhead</i> may be retained for a total aggregate of 3 fish. • Open for <i>warmwater fish</i> angling all year downstream from the footbridge in the City of Umatilla. • Closed to angling for <i>warmwater fish</i> upstream from the footbridge in the City of Umatilla April 16 – May [24] 23 . 	<p>52. Expanded angling opportunity. Extending the salmon season by two weeks will allow for harvest of hatchery spring Chinook salmon runs (ranged from 2,000 – 4,900 adults over the past 4 years).</p> <p>53. Clarification and expanded harvest opportunity. This proposal will clarify the current regulation as fall Chinook under 15 inches are not classified as jack salmon or trout and coho under 15 inches are considered a salmon but not a jack salmon. Anglers will be allowed to keep 5 of the newly defined trout during the general trout season. Anglers will also be allowed to keep five jack salmon, (coho between 15 and 20 inches and any other salmon species between 15 and 24 inches). (Bill Duke)</p>

SOUTHEAST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Species Name	Catch Limits	Length Limits and Other Specifications	Seasons	Rationale
77	55	<i>Hybrid Bass</i>	No limit	<ul style="list-style-type: none"> See Ana Reservoir [and Thompson Valley Reservoirs] under Special Regulations. 	<p>Lakes and Reservoirs: Open all year.</p> <p>Streams: Open during <i>trout</i> season.</p>	<p>54. Simplification. Proposal #59 would remove the special regulation for <i>striped bass</i> in Thompson Valley Reservoir. Rule changed needed in Zone Rules for <i>Hybrid Bass</i>. (ODFW)</p>

SOUTHEAST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
80	56	[Murray Reservoir]	<ul style="list-style-type: none"> • [No angling from a floating device.] 	55. Eliminate an unnecessary restriction. Contact with previous District Biologist and local anglers have failed to result in history or purpose for the current regulation. (Tim Bailey)
81	57	Sand Creek (Klamath Co.)	<ul style="list-style-type: none"> • Open entire year. • 5 trout per day, use of bait allowed. 	56. Expanded opportunity. No native fish in system. Additional angling opportunity available outside of Zone trout season. (Roger Smith)
81	58	Scott Creek (Klamath Co.)	<ul style="list-style-type: none"> • Open entire year. • 5 trout per day, use of bait allowed. 	57. Expanded opportunity. No native fish in system. Additional angling opportunity available outside of Zone trout season. (Roger Smith)
81	59 Key Issue	<p>Sprague River and tributaries (Klamath Co.)</p> <p>1. [Downstream from Chiloquin Dam] Mouth upstream to Saddle Mountain Pitt Road Bridge</p> <p>2. Saddle Mountain Pitt Road Bridge (USFS Road 5850) upstream to Godowa Springs Road Bridge.</p> <p>3. Mainstem and upstream from Godowa Springs Road Bridge and tributaries not listed.</p>	<ul style="list-style-type: none"> • Open May [23] 22 – Oct. 31. • 1 trout per day. • Angling restricted to artificial flies and lures only as per Zone Regulations. <hr/> <ul style="list-style-type: none"> • Open April [25] 24 – Oct. 31. • Use of bait allowed. <hr/> <ul style="list-style-type: none"> • As per Zone Regulations; Open April 24 – Oct. 31. 5 trout per day, 8 inch minimum length. Angling restricted to artificial flies and lures only. 	58. Clarification. New angling deadline needed since Chiloquin Dam was removed in 2008. Additional rule language to help clarify Zone rules. (Roger Smith)

SOUTHEAST ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
81	60	Thompson Valley Reservoir (Lake Co.)	<ul style="list-style-type: none"> [1 hybrid bass in 24 hours, 16 inch minimum length]. [No length or bag limit on largemouth bass.] 	59. Simplification. District sampling has not shown any survival of stocked hybrid bass in Thomson Valley Reservoir. The length and bag limit on largemouth bass is contained in the Zone Regulations. (Roger Smith)
81	61 Key Issue	<p>Williamson River (Klamath Co.): 1. Mouth upstream to the Modoc Point Road Bridge. The mouth of the Williamson River is located by marker buoys and the river channel extends upstream within the vegetation lined banks through Klamath Lake at high lake levels.</p> <p>[1. Mouth upstream to Modoc Point Road Bridge.]</p>	<ul style="list-style-type: none"> Open May 22 [23] – Oct. 31. 1 trout per day. 	60. Clarification. Following removal of dikes near the mouth of the Williamson River in 2009, flows from the lower Williamson River during high lake levels are no longer confined to the main channel. There might be some confusion where the current mouth of the Williamson resulting in anglers fishing in the lower channel prior to the May opener. (Bill Tinniswood)
81	62	Wood River from the mouth (mouth of Wood River extends through the Wood River Delta to emergent vegetation line in Agency Lake) upstream including tributaries, except Annie Creek (Klamath Co.)	<ul style="list-style-type: none"> Open April 24 – Oct. 31. Catch and release for trout 	60. Wood River entry was inadvertently omitted during print set-up. No rule change proposed. (Roger Smith)

COLUMBIA RIVER ZONE REGULATIONS

2009 Reg Page	Proposal Number	Regulations for this zone:	Rationale
92	63	<p>Regulations for this Zone:</p> <ol style="list-style-type: none"> 1. In the Columbia river where it forms the state boundary line, not including tributaries, sloughs and lands, the following rules apply: <ol style="list-style-type: none"> a. License and tags of either state are valid except when the other state's season is closed; b. Anglers must follow the rules of the state in which they are fishing; c. Anglers are restricted to one daily catch limit for all fish species from the Columbia River, even if licensed in Oregon and Washington. d. Anglers are restricted to one annual limit of sturgeon from the Columbia River, even if licensed in Oregon and Washington. e. Anglers that are residents of either Oregon or Washington may launch or take out their boats from either shore, regardless of which state license they hold; f. Anglers that are not a resident of either Oregon or Washington must possess a nonresident license for the state in which they are landing. e. Anglers with a valid resident or non-resident license issued by either Oregon or Washington may launch or take out their boats from either shore. 2. When fishing on tributaries, sloughs or from the land of a state, an angler must be licensed by that state and obey all angling regulations of that state. 3. NOTE: Mainstem Columbia River fisheries for <i>salmon</i>, <i>steelhead</i> and <i>sturgeon</i> are co-managed by the Oregon and Washington Department of Fish and Wildlife and the four Treaty Tribes, represented by the Columbia River Inter-Tribal Fish Commission. Based on discussions among the co-management agencies, Oregon may adopt in-season changes to sport fishery regulations in the Columbia River. Regulation changes can occur on short notice and will be made available to ODFW field offices, the news media and license agents. Anglers can check the status of regulations prior to fishing the Columbia River by checking the ODFW website: www.dfw.state.or.us for these rules, or calling 503-947-6001, 24 hours a day. 	<p>61. Clarification. The current language provides reciprocity for OR/WA anglers to launch and take out from either shore of the Columbia River (where it forms the state boundary) but requires non-residents to hold a license from the state from which they land (take out). This may be an unnecessary restriction on non-residents that is inconsistent with the concurrency extended to resident anglers. (John North)</p>

COLUMBIA RIVER ZONE REGULATIONS

2009 Reg Page	Proposal Number	Species Name	Catch Limits	Length Limits and Other Specifications	Seasons	Rationale
92	64	Striped Bass	2 per 24 hours; 2 daily limits in possession.	<ul style="list-style-type: none"> • 24 [30]-inch minimum length. 	Open all year.	62. Error Correction. Length limit for striped bass was changed in 2009. The change for the Columbia River Zone was omitted. (Rhine Messmer)
93	65	Other Fish: Shad	No limit	<ul style="list-style-type: none"> • Shad angling closed from Buoy 10 line upstream to Bonneville Dam April 1 – May 15. 	Open all year except as listed under Other Specifications.	63. Clarification. Shad are classified as a game fish and should not be grouped together with “other Nongame Fish”. Clarifies legal angling methods by making the Columbia River Zone classifications consistent with Statewide Rules. (John North)
		Other Fish: Northern Pikeminnow, Carp, Sucker, Chub, Sculpin, Whitefish, [Shad] and other Nongame Fish	No limit	<ul style="list-style-type: none"> • [Shad angling closed from Buoy 10 line upstream to Bonneville Dam April 1 – May 15.] 	Open all year.	

COLUMBIA RIVER ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
94	66	<p>Columbia River: 3. I-5 Bridge upstream to Bonneville Dam</p>	<ul style="list-style-type: none"> • Closed for <i>trout</i>. • Open for adipose fin-clipped <i>steelhead</i> Jan. 1 – March 31 and June 16 – Dec. 31. • Open for adipose fin-clipped <i>jack Chinook salmon</i> June 16 – July 31. • Open for <i>Chinook</i> and adipose fin-clipped <i>coho salmon</i> Aug. 1 – Dec. 31. • Minimum length for <i>salmon</i> is 12 inches. • Closed: <ol style="list-style-type: none"> 1. Between markers located 150 feet upstream and 450 feet downstream from the mouth of Tanner Creek out to center of the Columbia River Aug. 16 – Oct. 15; 2. Inside the south navigation lock at Bonneville Dam from a marker on the westernmost point of Robins Island to a marker on the Oregon mainland shore. • Bank angling prohibited: <ol style="list-style-type: none"> 1. From Bradford Island below Bonneville Dam from south shore between the dam and a line perpendicular to the shoreline marker at west end of riprap and from north shore between fishway entrance and a line perpendicular to the shoreline marker 850 feet downstream; 2. From Robins Island below Bonneville Dam downstream to a line perpendicular to the shoreline marker on mooring cell. • Angling from a floating device or using a floating device to set lines is prohibited in the area between Bonneville Dam and a line crossing the river downstream from the dam marked by the boat-restricted zone sign [a sign] on the Oregon shore at the western-most tip of Robins Island to the boat-restricted zone sign [a sign] approximately 50 feet upstream of the Hamilton Island boat ramp on the Washington shore (USACE Boat Restriction Zone). • Angling for <i>sturgeon</i> is prohibited from Marker 85 upstream to Bonneville Dam May 1 – July 31. • Angling for <i>salmon</i> from a floating device is prohibited from Beacon Rock upstream to Bonneville Dam Nov. 1 – Dec. 31. 	<p>64. Enforcement. The words “a sign” are not specific enough for enforcement purposes. At least one citation has been dismissed in court due to ambiguity in the current language. Defining which sign is being referenced will improve enforcement capabilities. (John North)</p>
95	67	<p>Herman Creek upstream to mainline railroad bridge (Hood River Co.)</p>	<ul style="list-style-type: none"> • Open for <i>chinook</i>, adipose fin-clipped <i>coho salmon</i>, and adipose fin-clipped <i>steelhead</i> consistent with regulations for the Columbia River from Bonneville Dam upstream to Oregon/Washington border; except Closed Aug. 16. – Nov. 30 • The area west of the peninsula up to the Lower Herman Creek Pond structure is closed to all anglers except that fishing is authorized the entire year for youth age 17 and under and [by] those individuals who possess one of the following Department issued licenses: Blind Angler License; Wheelchair Angling License; Disabled War Veteran Angling License, or Oregon Disabilities Hunting and Fishing Permit. A person may assist a holder of one of the above permits in angling in this area provided that conditions of the 	<p>65. New Opportunity and consistency with other fisheries in the District intended to provide unique angling opportunities for youth and adults with disabilities. Develop new youth angling opportunity consistent with direction provided in the 25-Year Angling Enhancement Plan (Todd Alsbury)</p>

COLUMBIA RIVER ZONE REGULATIONS

2009 Reg Page	Proposal Number	Water	Special Regulations	Rationale
			permit (see pages 4-5) are followed. <ul style="list-style-type: none"> • An Oregon license and tag are required when angling in an area defined by a line running from the northwest corner of the jetty due south to a marker on the south shore and east into the lagoon. • See Central Zone (page 61) for the area upstream from the mainline railroad bridge. 	

MARINE ZONE REGULATIONS

2009 Reg Page	Pro. #	Species Name	Daily Catch Limits	Harvest Methods and Other Specifications	Seasons	Rationale
100	68 69	Groundfish Group	Marine Fish: <i>Lingcod</i> (including green colored <i>lingcod</i>)	2 fish.	Waters are open all year, 24 hours per day unless noted under Special Regulations . In addition, ocean closed April 1 through Sept. 30 outside of the 40-fathom curve (defined by latitude and longitude) for these species. Stonewall Bank conservation area closed for these species and Pacific halibut at all times.	66. Clarification. Pacific cod is specified in the Halibut Regulations, and not explicitly stating what bag limit it falls in will be confusing. (Gway Kirchner)
	<i>Rockfish</i> ("sea bass", <i>snapper</i>) <i>Greenling</i> ("sea trout"), Pacific Cod , <i>Cabezon</i> , <i>Skates</i> and other marine species not listed on pages 100-101.		6 fish in aggregate. Retention of <i>yelloweye rockfish</i> and <i>canary rockfish</i> is prohibited .	<ul style="list-style-type: none"> • 22 inch minimum length for <i>lingcod</i>. • 16 inch minimum length for <i>cabezon</i> • 10 inch minimum length for <i>greenling</i> • May be taken by angling, hand, bow and arrow, spear, gaff hook, snag hook and herring jigs. • When <i>Pacific halibut</i> are onboard the fishing vessel, see Special Regulations for possession restrictions. 		
	<i>Flatfish</i> , (<i>flounders</i> , <i>soles</i> , <i>sanddabs</i> , <i>turbots</i> and <i>halibuts</i> except <i>Pacific Halibut</i>).		25 fish in aggregate.			
100	70	Marine Fish (continued): <i>Surfperch</i> (includes all marine perch species)	15 fish in aggregate	<ul style="list-style-type: none"> • May be taken by angling, hand, bow and arrow, spear, gaff hook, snag hook and herring jigs. 	Waters are open all year, 24 hours per day unless noted under Special Regulations .	68. Error Correction. Striped Bass length limits changed to 24 inches in 2009. This change was inadvertently omitted. (ODFW)
		<i>Striped Bass</i> and/or <i>Hybrid Bass</i>	2 fish in 24 consecutive hours.	<ul style="list-style-type: none"> • May be taken by angling. • [30] 24-inch minimum length for striped/hybrid bass. 		
100		<i>Herring</i> , <i>Anchovy</i> , <i>Smelt</i> and <i>Sardine</i>	25 pounds in aggregate.	<ul style="list-style-type: none"> • May be taken by dip net, cast net, angling and herring jigs. • Herring jigs may have any number of hooks. 		No rule change just changed the order of bullets describing Harvest Methods for Pelagic Species.
		Offshore <i>Pelagic species</i> (see definition page 6)	25 fish in aggregate. <i>White Sharks</i> and <i>basking sharks</i> are prohibited and must be immediately released	<ul style="list-style-type: none"> • May be taken while angling, hand, bow and arrow, spear, gaff hook, snag hook and herring jigs. • Methods as described below are only allowed when fishing outside of three miles from shore for offshore pelagic species. Only offshore pelagic species may be in possession, and any other species

			unharmful.	caught must be immediately released while using these methods. <ul style="list-style-type: none"> Use of chum is allowed. Chum may be live, dead, or cut up <i>squid</i>, <i>herring</i>, <i>sardine</i>, <i>anchovy</i>, <i>smelt</i> or <i>Pacific mackerel</i>. No restrictions on the number of rods or lines fished per angler. 		
103	71	Other Closures: Humbug Mt. to Cape Falcon		<p>[When <i>Pacific halibut</i> are onboard vessel, take or possession of fish listed or referred to in the "Species Name" column on page 101 (plus and <i>soupin shark</i>) except <i>sablefish</i> prohibited at all depth. On open sport <i>halibut</i> "all depth days.]</p> <p><u>During days open to the Oregon Central Coast "all-depth" sport halibut fishery, when <i>Pacific halibut</i> are onboard the vessel, no species from the groundfish group may be taken and retained, possessed or landed, except <i>sablefish</i> and <i>Pacific cod</i>.</u></p>		69. Housekeeping. Pacific cod is added. Leopard and soupin sharks are by def. excluded from the offshore pelagic species list, so they need not be specified under this rule. By using a single term such as "groundfish group" for the species listed on page 28, we avoid the problem of listing an incorrect page number, and it simplifies reference to those species. Proposed language, other than use of term "groundfish group" is the same as Federal language. Requires new definition for "groundfish group." (Gway Kirchner)
