Diamond Lake

~~[Diamond Lake shall be managed for hatchery production under the basic yield alternative of Oregon's Trout Plan.]~~

(1) Policies and objectives for fish management in Diamond Lake in the upper Umpqua Basin.

(a) Policies:

(A) Fingerling, legal and trophy sized rainbow trout shall be managed for hatchery production consistent with the Basic Yield Management Alternative of Oregon's Trout Plan (OAR 635-500-0115(4));

(B) Annual fingerling rainbow trout stocking will provide the primary fish production in Diamond Lake; and

(C) Legal and trophy sized rainbow trout may be stocked annually to enhance trout production;

(b) Objectives:

(A) Provide quality, consumptive angling opportunities for hatchery produced trout;

(B) Conduct fishery monitoring and evaluations necessary to maintain fishery objectives and healthy lake ecology; and

(C) Provide for the prevention and control of illegally introduced fish species.
