Capture and Transportation of Raptors

A raptor capture permit is required prior to capturing or attempting to capture any raptor. A non-resident falconer from a state having a federally approved falconry program may obtain a capture permit for a red-tailed hawk, Cooper's hawk, sharp-shinned hawk, prairie falcon, peregrine falcon, great horned owl, golden eagle or American kestrel only. All non-resident applications must include copies of current state and federal falconry permits. All applicants for golden eagle

capture must include a copy of the federal authorization to take golden eagles. Only 20 non-resident capture permits will be issued in total each capture season. All non-resident capture permits, except for capture permits for peregrine falcons, will be issued on a first come first served basis.

(1) A ~~non~~ **nonrefundable** application fee of \$15.00 (plus a \$2.00 license agent fee) will be charged for each capture permit allowing the capture of one raptor per permit.

(2) Except for take of ~~nestling (eyas)~~ peregrine falcons, the Department will issue capture permits in the order applications are received. The permit process will begin January 1st of each year, and applicants must hold a valid Oregon falconry license. The category of species shall be listed on the permit (e.g. “golden eagle”, “gyrfalcon”, “[~~eyas~~] peregrine falcon”, or “other raptor”) and the falconer is authorized to take only one raptor from the category specified. A falconer may apply for a capture permit in more than one category. The falconer whose name appears on the permit must do the capturing except for peregrine falcon nestlings; the permit is not transferable.

(3) Capture permit applications for ~~nestling~~ peregrine falcons may be submitted to the Department beginning January 1st and received no later than March 1st of each year. The Department will issue peregrine falcon capture permits by way of a lottery draw pursuant to OAR 635-055-0037.

(4) Of the number of permits available for issuance annually, the Department will make one such permit available to nonresidents. Each permit will include conditions crafted by the Department on a case by case basis to address the particular proposal to capture peregrine falcons. Such conditions may include, but are not limited to, requirements to protect the safety of falconers and other humans during capture of peregrine falcons, and shall specify where the permittee may capture peregrine falcons. The following general conditions apply to all peregrine falcon capture permits:

~~[(a) Young falcons may be removed from their eyries from May 15th to June 30th daily and when only between 15 and 24 days of age. At least one nestling must be left in each eyrie prior to fledging. A young (fledgling) peregrine falcon may be taken up to 30 days after leaving the nest.]~~

EXCEPTION: nestling peregrine falcons may be removed from nests on man-made structures (e.g. bridges or buildings) by persons authorized by the department during nest-site management activities.
