**Subject:** Make the sensible choice! Pull the Nestlé permit today.

Dear ODFW Commissioners -

I am asking you to take action today on an urgent issue: a permitting process that would allow Nestlé to bottle water from the Oxbow Springs in Cascade Locks. This is especially timely because ODFW is about to enter into legal proceedings on a water forfeiture claim related to this issue. Once ODFW enters into these legal proceedings, it will initiate an unnecessary financial burden for the agency. I do not believe that taxpayer dollars should be spent to facilitate a proposal that would give away public water and could ultimately put the water supply for ODFW's Oxbow Hatchery at risk.

Now is the perfect time for the ODFW to take the sensible route and pull Water Exchange Application T-11109. As an appointed Commissioner of the ODFW, you can help Director Elicker make the decision to pull this permit before costly legal proceedings begin. Please contact Director Elicker and tell him it is in the best interest of the Oxbow Hatchery and ODFW to pull T-11109 today.

Thank you,

Elaine Kuehn  
8912 NE Russell St.  
Portland, OR 97220

**To:** ODFW Commission  
**Subject:** use of water by Nestle's

Dear sir,

Let it be known that I heartily disapprove of Nestle's being allowed to use spring water from Cascade Locks area for commercial purposes. I understand it could possibly provide less water for the hatchery and the town.

Thank You,

Virginia Maffitt

**From:** Diane Smith [smithdi410@me.com]  
**Sent:** Tuesday, September 03, 2013 1:42 PM  
**To:** ODFW Commission  
**Subject:** Nestle water plant

I have heard that Nestle Water would like to build and operate a water bottling plant in the Columbia River Gorge town of Cascade Locks. They will be sourcing spring water from a spring that the Oregon Department of Fish and Wildlife (ODFW) maintains a fish hatchery. They also wish to use Cascade Locks' municipal tap water, which is sourced from groundwater.

I am concerned that this deal might jeopardize local supply, harm the environment and natural resources. I would like to have more information about this proposal and the possible effect it could have on our environment. Please keep me informed about this situation and know that as a lifetime Oregonian, I expect our elected officials to protect our history of clean waters and lands. I am **not** in support of the "Nestle Plant" at this time.

Sincerely, Diane Smith, 361 NE 61st Ct. Hillsboro, OR 97124
