Subject: Bobcat Tags reduction

This is in response to the proposal to reduce the eastern bobcat tags to 3. I strongly object to this proposal. I am a native Eastern Oregonian and have hunted bobcats with hounds for the last 15 years. The cat population is very strong in all of my hunting areas.

It wasn't to many years ago that ODFW was giving 7 tags per record card.

The local biologist told me that they have the jaws for that last several years in storage. It's my understanding that to determine the population strength. What is the reason for this proposal?

I am in Prineville and don't see that there is a meeting here. What can we do to keep this at 5?

Sincerely

Mike Weston

To: ODFW Commission

Subject: Protect Citizens from Trappers

Oregon Fish and Wildlife must protect the public from cruel and indiscriminate traps, including a 24-hour trap check requirement, warning signs and bigger setbacks from public premises. Other trapping conducted in the name of wildlife management should be limited by regulations designed to safeguard pets and their owners.

Thank you.
