**Subject:** coyote creek aquisition

I currently live off central road near the area you are trying to gain acquisition to, I have just read this information today and dont know why we havent heard about this sooner. we do hunting for deer and birds in the area and it is a big part in the hunting area in the camas swale unit. why has this just now been released??? there is no way to find this out except over the holiday??? I subscribe to the odfw website and heard nothing till now. there are getting to be more and more places that we cannot go deer hunting anymore . they keep saying its for conservation but no one is ever allowed to hunt there. I guess I just dont understand what fish and game is doing. no one goes walking out there just to look at it. I drive by there several times a day. no one is ever out there looking at anything and there is a meat packing plant right in the area also.the geese are over running everything and if we cant hunt them there it will get much worse for us living there.
