RE: Thank you for taking steps to protect Oregon's forage fish

Dear Chair Finley and Director Melcher:

I am writing to express my thanks to the Oregon Department of Fish and Wildlife (ODFW) for launching a process to establish protections for forage fish in Oregon's state waters. These small fish play a huge role in the marine food web, providing a key source of nourishment for our most treasured ocean species, including salmon, tuna, whales, and seabirds. Abundant populations of forage fish are vital to a healthy ocean and to Oregon's coastal and fishing communities.

While many of these forage species are not currently targeted for fishing off the West Coast, industrial demand for them is rising sharply around the world—which means precaution here at home makes good sense. I applaud ODFW for advancing this forward-looking, common-sense effort; by acting now to conserve forage fish, Oregon can ensure that these species will continue to sustain our invaluable ocean wildlife for generations to come.

Thank you for taking steps to protect a healthy ocean food web by proactively safeguarding forage fish. I look forward to ODFW's progress on this issue over the next year.

Sincerely,

Charles	Alexander	Lutheville	MD	21093	A unbroken, large area of protection is much better than a fragmented one.
Wendy	McKee	Corvallis	OR	97330	All animals, regardless of size, are part of the web of life. Thanks for recognizing that even the smallest deserve help to survive.
Eleanor	Thomas	Livermore	CA	94550	As a vegan of over 30 years I find fishing absolutely deplorable. But I do send thanks to ODFW for some small steps in protecting forage fish for the animals who live in the ocean who truly need them as food. Humans do not need fish for food. But the ocean creatures do.
Sharon	Gaskill	Black Earth	WI	53515	Even tho I live in the middle of the US, your efforts to preserve forage fish and fisher people are much appreciated, as I assume you are glad we work to protect the water quality of the Great Lakes.
