

Oregon Conservation Strategy and Oregon Nearshore Strategy

Table of Contents

Oregon Conservation Strategy (OCS):

OCS Chapter 1. Introduction to the Strategy:

- Oregon's Unique Natural Heritage
- A Solid Foundation: Oregon's Planning and Regulatory Framework
- Oregon Conservation Strategy: What It Is and What It Can Do
 - Oregon Conservation Strategy Goals
 - What It Is Not
 - The National Approach
 - Scope of the 2015 Update
- OCS 10-year Report (2006 – 2015)
- How to Use the Strategy: Organization and Navigation Guide
 - Oregon Conservation Strategy
 - For Communities, Planners and Organizations
 - For Individual Private Landowners
 - Oregon Nearshore Strategy [\[Insert OCS weblink to Nearshore\]](#)

OCS Chapter 2. Statewide Key Conservation Issues:

- Overview
- Climate Change [\[Insert weblink to Nearshore\]](#)
- Land Use Changes
- Invasive Species [\[Insert weblink to Nearshore\]](#)
- Disruption of Disturbance Regimes
- Barriers to Animal Movement
- Water Quality and Quantity
- Challenges and Opportunities for Private Landowners to Engage in Conservation

OCS Chapter 3. Ecoregions:

- Overview
- Blue Mountains
- Coast Range
- Columbia Plateau
- East Cascades
- Klamath Mountains
- Northern Basin and Range
- West Cascades
- Willamette Valley
- Nearshore [\[Insert weblink to Nearshore\]](#)
- Columbia River
- Conservation in Urban Areas

OCS Chapter 4. Conservation Opportunity Areas:

- Overview
- Conservation Opportunity Area Boundaries
- Conservation Opportunity Area Profiles
- Methodology

OCS Chapter 5. Strategy Habitats:

- Overview
- Aspen Woodlands
- Coastal Dunes
- Late Successional Mixed Conifer Forests
- Estuaries [\[Insert weblink to Nearshore\]](#)
- Flowing Water and Riparian Habitat
- Natural Lakes
- Grasslands
- Oak Woodlands
- Ponderosa Pine Woodlands
- Sagebrush Habitats
- Wetlands
- Specialized and Local Habitats
- Habitat Data Gaps
- Habitat Mapping Methodology and Documentation

OCS Chapter 6. Strategy Species Methods:

- Overview
- Methods for Determining Strategy Species [\[Insert weblink to Nearshore\]](#)
- Strategy Species Conservation Summaries: Guide to Tables (OCS Chapter 7)

OCS Chapter 7. Oregon Conservation Strategy and Nearshore Strategy Species List:

- Birds
- Mammals
- Amphibians
- Reptiles
- Fish
- Invertebrates
- Plants and Algae

OCS Chapter 8. Monitoring and Supporting Information:

- Strategy Species and Habitat Monitoring
 - Monitoring Overview
 - Monitoring Guidance for Strategy Fish and Wildlife Species
 - Citizen Science
 - Data Management
- Species Data Gaps and Research Needs
- Animal Concentrations
- Fish and Wildlife Diseases [\[Insert weblink to Nearshore\]](#)

OCS Chapter 9. Conservation Toolbox:

- Outreach, Education, and Engagement
- Appendix 1: Existing Planning and Regulatory Framework
- Appendix 2: Existing Voluntary Conservation Programs
- General References

OCS Chapter 10. Conclusions:

- Funding, Implementation and Review
- Acknowledgements
- Citation Recommendation

Oregon Nearshore Strategy (ONS):

Table of Contents, Acronyms

ONS Chapter 1. Introduction

ONS Chapter 2. Nearshore Strategy Context

- Required Elements for State Wildlife Action Plans
- The Nearshore Strategy – A Broad Approach
- Management Framework

ONS Chapter 3. Nearshore Strategy Development

- Process and Participants
- Summary of Public Input
- Summary of Changes

ONS Chapter 4. Coastal Communities

- Oregon Coastal History
- General Coastal Oregon Population Data
- Coastal Oregon Economic Characteristics
- Coastal Oregon Employment and Retirement Characteristics

ONS Chapter 5. Nearshore Species

- Nearshore Strategy Species
- Watch List Species
- Other Commonly Associated Species

ONS Chapter 6. Nearshore Habitats

- Oceanographic Context – the California Current System
- CMECS Framework
- Nearshore Habitat Mapping
- Species-Habitat Associations
- Neritic (Open water)
- Soft Bottom Subtidal

- Rocky subtidal
- Rocky Shore
- Sandy Beaches
- Estuaries

ONS Chapter 7. Factors Affecting Nearshore Strategy Species and Habitats

- Table provides list of Factors and Sources
- Climate Change and Ocean Acidification
- Water Quality Degradation
- Alteration and Loss of Habitat
- Alteration of Oceanographic Regimes
- Overexploitation
- Noise Pollution
- Oil Spills
- Invasive Species
- Wildlife Disturbance
- Harmful Algal Blooms
- Disease
- Sensitivity to Adverse Effects from Natural and Anthropogenic Factors
 - Species Sensitivities Matrix table

ONS Chapter 8. Nearshore Research and Monitoring

- Existing ODFW Research and Monitoring
- Research and Monitoring Needs

ONS Chapter 9. Recommendations

- Category: Education and Outreach
- Category: Research and Monitoring
- Category: Management and Policy

ONS Chapter 10. Conclusions

- Looking to the future
- Review of the Nearshore Strategy
