Subject: Tag Setting Process

On behalf of OHA, I would like to commend you and the Department for evaluating the Tag Setting process. You have OHA's full support! As you are aware, for many years we have been asking what can be done to allow sportsman more time to review proposals and tag allocations. This certainly address those concerns.

Thank you for seeking to improve the effectiveness and efficiencies in these important processes.

Fred W.
OHA Board, Chair

Ps: Wanted to share this with Curt as well, but did not have his email address readily available. Could you please forward and provide me with his email if possible? Thanks again!
