21 Adopt Temporary Rules

22 Curt Melcher, Director, requested the Commission ratify the following temporary rules.

23 The nine (9) temporary rules were previously adopted by the director under his
24 emergency action authority.
25

26 1.) 635-004-0275

27 Federal Actions and Management Measures Implemented for Commercial 28 Groundfish Fisheries.

29 Adopted February 9, 2018: effective February 12, 2018 through August 10, 2018

30 This amended rule adopts in-season actions previously adopted by the federal
31 government for 2017-2018 Pacific Coast commercial groundfish fisheries. Including but
32 not limited to increased trip limits for big skate in the shore-based individual fishing quota
33 program, decreased trip limits for sablefish in the limited entry fixed gear and open
34 access fisheries, and increased trip limits for lingcod in the limited entry fixed gear and
35 open access fisheries.
36

37 1.) 635-018-0090

38 2018 Spring Chinook Seasons on the Lower Deschutes and Hood Rivers

39 Adopted February 9, 2018: effective April 15, 2018 through June 30, 2018

40 This amended rule allows the sport harvest of hatchery spring Chinook salmon in
41 the Lower Deschutes River from May 1, through June 30, 2018; and sport harvest of
42 hatchery spring Chinook salmon in the Hood River from April 15 through June 30, 2018.
43 The Deschutes River open area extends from the mouth at the I-84 Bridge upstream to
44 Sherars Falls. It is unlawful to continue to angle from Sherars Falls downstream to the
45 upper railroad trestle after taking the daily adult bag limit of spring Chinook. The Hood

1 River open area extends from the mouth to the mainstem confluence with the East Fork
2 and the West Fork from the confluence with the mainstem upstream to the angling
3 deadline 200 feet downstream of Punchbowl Falls. The daily bag limit for the Lower
4 Deschutes River is two (2) adult hatchery salmon and five (5)-hatchery jack salmon per
5 day. The daily bag limit for the Hood River is two (2) adult hatchery salmon per day, and
6 five (5) hatchery jack salmon per day. All wild Chinook salmon must be released
7 unharmed. All other limits and restrictions remain unchanged from those listed for these
8 rivers in the **2018 Oregon Sport Fishing Regulations**.

9
10 **2.) 635-065-0765**

11 **Amend Rules to Add Iowa and Mississippi to Cervid Parts Importation Ban**

12 Adopted: February 13, 2018. Effective Dates: February 13, 2018 through August 11,
13 2018

14 In June 2003, the Fish and Wildlife Commission adopted rules banning the
15 importation of certain cervide parts from those states with documented cases of Chronic
16 Wasting Disease (CWD). The rules noted that the Department would add additional
17 states to the rules as new cases of CWD were documented. Based on new information,
18 the rule is amended to add Mississippi to the list of states from which cervid parts may
19 not be imported (Note: Iowa was listed previously and included in the Big Game
20 Regulations but inadvertently omitted from the permanent rule filing.)

21
22 Following the permanent rule making process, rather than taking this temporary rule
23 making action, will result in serious prejudice to the public interest because it would delay
24 banning the importation of cervid parts from a state with documented cases of CWD. The
25 purpose of the cervid parts ban is to protect Oregon's wildlife from disease. The purpose
26 can only be carried out if the ban covers all states affected by CWD, and the ban takes
27 effect soon enough to intercept parts ban from those states. Failure to promptly add
28 affected states to the parts import ban could expose Oregon to risk of disease.

29
30 **3.) 635-041-0065**

31 **2018 Winter Commercial Gillnet Treaty Indian Fisheries Set**

32 Adopted February 14, 2018: effective February 14, 2018 through March 31, 2018

33 This amended rule extends the Treaty Indian winter commercial gill net season in
34 the John Day Pool through Friday, March 2, 2018 and sets the Treaty Indian winter
35 commercial gill net season in the Bonneville Pool beginning Monday, March 5, 2018.
36 Modifications are consistent with action taken February 14, 2018 by the Oregon and
37 Washington Departments of Fish and Wildlife, in cooperation with the Columbia River
38 Treaty Tribes, at a meeting of the Columbia River Compact.

39
40 **4.) 635-005-0465**

41 **Commercial Dungeness crab Evisceration Requirement for Biotoxin Management**
42 **Zone**

43 Adopted February 16, 2018: effective February 16, 2018 through July 9, 2018

44 In coordination with Oregon Department of Agriculture (ODA) temporary rule
45 making, (see OAR 635-025-0420). This amended rule implements a biotoxin

1 management zone for the ocean commercial Dungeness crab fishery from Cape Blanco
2 (42° 50' N. Lat.) southward to the Oregon/California border (42° 00' N. Lat.) due to
3 detection of elevated levels of domoic acid in crab viscera in the specified area. In
4 combination, this rule and ODA rule require that all Dungeness crab taken from the
5 biotoxin management area zone after 12:01 AM February 16, 2018 be sold to a licensed
6 food processor that eviscerates the crab consistent with the ODA rule. In addition, crab
7 harvested from a line just north of Gold Beach (42° 26' N. Lat.) to the Oregon/California
8 border after 12:01 AM February 13, 2018 will be subject to recall for evisceration. These
9 rules prohibit the sale of live or whole crab caught from the biotoxin management zone,
10 and prohibit the sale of any crab that is not processed consistent with these rules.

11 *Note: Oregon Department of Agriculture did not suspend their rule therefor an additional*
12 *rule was not needed to override the above temporary filing.*

13
14 **5.) 635-041-0065**

15 **2018 Winter Commercial Gillnet Treaty Indian Fisheries Set**

16 Adopted February 21, 2018: effective February 22, 2018 through March 31, 2018

17 This amended rule extends the Treaty Indian winter commercial gill net season in
18 the John Day Pool through Saturday, March 3, 2018 and sets the Treaty Indian winter
19 commercial gill net season in The Dalles Pool beginning Thursday, February 22, 2018.
20 Modifications are consistent with action taken February 21, 2018 by the Oregon and
21 Washington Departments of Fish and Wildlife, in cooperation with the Columbia River
22 Treaty Tribes, at a meeting of the Columbia River Compact.

23
24 **6.) 635-023-0125**

25 **Columbia River Recreational Seasons for Salmon, Steelhead, and Shad Set**

26 Adopted February 21, 2018: effective March 1, 2018 through June 15, 2018

27 This amended rule sets regulations for Columbia River recreational spring
28 Chinook, steelhead and shad seasons with descriptions of areas, dates, and bag limits
29 for harvest of adipose fin-clipped Chinook salmon, adipose fin-clipped steelhead, and
30 shad. Revisions are consistent with action taken February 21, 2018 by the Oregon and
31 Washington Departments of Fish and Wildlife in a meeting of the Columbia River
32 Compact.

33
34 **7.) 635-041-0065**

35 **2018 Winter Commercial Gillnet Treaty Indian Fisheries**

36 Adopted March 12, 2018: effective March 15, 2018 through March 31, 2018

37 This amended rule extends the Treaty Indian winter commercial gill net season in
38 the John Day and The Dalles Pool's beginning Thursday, March 15, 2018. Modifications
39 are consistent with action taken March 12, 2018 by the Oregon and Washington
40 Departments of Fish and Wildlife, in cooperation with the Columbia River Treaty Tribes,
41 at a meeting of the Columbia River Compact.

1 **8.) 635-042-0170**

2 **Modify 2018 Commercial Seasons for Tongue Point and South Channel Select**
3 **Areas**

4 Adopted March 13, 2018: effective March 15, 2018 through July 26, 2018

5 These amended rules modify the 2018 winter commercial salmon seasons for the
6 Tongue Point/South Channel Select Areas. The first authorized fishing period in these
7 Select Areas has been rescinded and new fishing periods have been set. Modifications
8 are consistent with action taken March 13, 2018 by the Departments of Fish & Wildlife for
9 the States of Oregon and Washington at a meeting of the Columbia River Compact.

10
11 **9.) 635-042-0170**

12 **Modify 2018 Commercial Seasons for Tongue Point and South Channel Select**
13 **Areas**

14 Adopted March 13, 2018: effective March 15, 2018 through July 26, 2018

15 These amended rules modify the 2018 winter commercial salmon seasons for the
16 Tongue Point/South Channel Select Areas. The first authorized fishing period in these
17 Select Areas has been rescinded and new fishing periods have been set. Modifications
18 are consistent with action taken March 13, 2018 by the Departments of Fish & Wildlife for
19 the States of Oregon and Washington at a meeting of the Columbia River Compact.
