- Necessarily will be documented and retained as a separate public record to comply with applicable laws.

In the absence of separate documentation, State employees are not to use text messages for official purposes other than routine communications that do not meet the definition of a “public record.”

• **Routine Communications**

- Providing factual information unrelated to official state business.

Unacceptable Use:

State employees shall avoid communicating official state business or engaging in discussions regarding the primary business of employee's work over text-message. As noted above, relevant facts pertaining to official state business may be reported only if they are already documented in separate public records or they necessarily will be documented in a separate public record.

If, notwithstanding this Policy, text message is used to communicate information (not otherwise documented) relating to official state business or primary business of the employee's work, such discussion is to be immediately converted and saved in a separate public record format (e.g. by forwarding the relevant text messages to an employee's official e-mail).

State-owned devices with text message capability are always subject to search.

- *Explaining your current whereabouts, or inquiring about someone else's ("We're at the meeting discussing this morning's announcement. Are you around?")*
- *Describing facts or events that do not relate to the substance of the Office's work ("Spilled coffee all over myself right before trial!"), or that have been or necessarily will be separately recorded ("Mr. Jones just testified to the committee that our bill would cost taxpayers \$3 million.")*
- *Inquiring about events like those in the previous bullet ("Has Mr. Jones testified in committee yet?")*

e. **TEXT MESSAGING**

Acceptable Use:

INSERT: Agency Name employees may use text messaging to communicate factual and logistical information that: is not part of or related to conducting official state business, unless that information has been documented elsewhere; or will be documented and retained as a separate public record according to the agency's authorized records retention schedule.

In the absence of separate documentation, **INSERT: Agency Name** employees are not to use text messages for official purposes other than for routine communications that do not meet the definition of a "public record."

Examples of Acceptable Uses

- Scheduling.
- Requesting a call or email on a matter, without substantive discussion.
- Requesting or offering logistical assistance ("Can you help me get these boxes to the courthouse?")
- Forwarding any person's contact information ("I'm at 503-378-6002.")
- Explaining your current whereabouts, or inquiring about someone else's ("We're at the meeting discussing this morning's announcement. Are you around?")
- Describing facts or events that do not relate to the substance of the Office's work ("Spilled coffee all over myself right before trial!"), or that have been or necessarily will be separately recorded ("Mr. Jones just testified to the committee that our bill would cost taxpayers \$3 million.")
- Inquiring about events like those in the previous bullet ("Has Mr. Jones testified in committee yet?")

Unacceptable Use:

INSERT: Agency Name employees must avoid communicating official state business or engaging in discussions regarding the primary business of employee's work over text-message.

As noted above, relevant facts pertaining to official state business may be reported only if they are already documented in separate public records or they necessarily will be documented in a separate public record.

If, notwithstanding this Policy, text message is used to communicate information (not otherwise documented) relating to official state business or primary business of the employee's work, such discussion is to be immediately converted and saved in a separate public record format (e.g. by forwarding the relevant text messages to an employee's official e-mail).

Because INSERT: Agency Name requires that no text message-based public records be created –or if they are created, that be converted and saved in an alternate format, which would serve as the official copy of the record - INSERT: Agency Name will not retain text messages.

INSERT: Agency Name employees' personal electronic devices should not be used to transmit text messages related to state business. Personal devices are subject to search if used to transmit text messages regarding official state business and/or information related to employee's work that rises to the level of creating a public record.

f. **UNIFIED COMMUNICATIONS**

INSERT: Agency Name will identify public records created by actively using Unified Communications features and ensure those records are appropriately managed in accordance with authorized records retention schedules as well as other applicable State and Federal policies and laws.

INSERT: Agency Name will implement the following practices and procedures to accurately capture public records created by use of active Unified Communications features:

g. **VOICEMAIL**

Unless otherwise required, INSERT: Agency Name will not retain messages on voicemail.

Email transcriptions of voicemails that are determined to be public records will be retained in accordance with authorized records retention schedules and may be subject to public disclosure upon request.

VII. STORAGE AND RETRIEVAL

Paper Records:

INSERT: Agency Name will maintain a filing system of the agency's paper records based on authorized retention schedules. The filing system will include the location of records, retention periods and procedures for retrieval to ensure accessibility of agency records.

Electronic Records:

INSERT: Agency Name will maintain a filing system and naming conventions for all agency records stored in electronic format based on the agency's authorized retention schedules. The filing system and naming conventions will include the location of records in agency directories, retention periods, access controls and privacy conditions to support management of the agency's inventory of electronic records.

INSERT: Agency Name will work with the State Archivist to ensure that retention periods for all records have been met before any data is destroyed and prior to deleting any large electronic record system.

VIII. PUBLIC RECORDS REQUESTS

INSERT: Agency Name will respond to all official requests for public records as timely as possible, consistent with the proper exercise of judgment relating to the INSERT: Agency Name other duties.

Additional policies and procedures related to requests for public records (intake, processing, and disclosure and/or determinations related to fees and charges) are the subject of separate agency policies and statewide protocols, processes and procedures.

IX. DISPOSITION AND DESTRUCTION OF PUBLIC RECORDS

INSERT: Agency Name will dispose of and/or destroy public records in accordance with the requirements of authorized records retention schedules and OAR chapter 166-300.

Pursuant to ORS 357.855, the State Archivist shall be consulted by INSERT- Agency Name employees for advice and assistance with determining the disposition of certain record types, not accounted for in State Agency General or Special Retention Schedules and reconciliation of unforeseen issues regarding public records.
