**Subject:** Funding Priorities

Hello

Considering the current dire straits the environment is rapidly approaching, I believe the Conservation Projects must, out of a desperation, be given priority over Recreation Projects.

We have to BEGIN NOW and though recreation is necessary for mental and physical well-being, it must take a lower place on the priority scale to conservation efforts. Say you have funding for approximately five to six projects. At least four of those projects must be ways to slow and stop our planet from heating any further, while one or two projects should be recreationally oriented.

I hope this make sense to y'all. Thank you for your time.

Susan Sheythe
