#### HEARING(S)

*Auxiliary aids for persons with disabilities are available upon advance request. Notify the contact listed above.*

DATE: 01/14/2022

TIME: 8:00 AM - 5:00 PM

OFFICER: Oregon Fish and Wildlife Commission  
ADDRESS: Oregon Department of Fish and Wildlife  
4034 Fairview Industrial Dr SE  
Salem, OR 97302

#### SPECIAL INSTRUCTIONS:

Note: Because of the rapidly changing situation with COVID-19, all or portions of this hearing may be conducted virtually. Information will be posted on our website at <https://www.dfw.state.or.us/agency/commission/minutes/>

#### NEED FOR THE RULE(S)

Rule modifications are needed to update existing food fish species' market values that will be used to access damages resulting from commercial fishing violations.

#### DOCUMENTS RELIED UPON, AND WHERE THEY ARE AVAILABLE

Rule modifications are needed to update existing food fish species' market values that will be used to access damages resulting from commercial fishing violations.

#### FISCAL AND ECONOMIC IMPACT:

There are no expected fiscal or economic impacts associated with this rule change.

#### COST OF COMPLIANCE:

(1) Identify any state agencies, units of local government, and members of the public likely to be economically affected by the rule(s). (2) Effect on Small Businesses: (a) Estimate the number and type of small businesses subject to the rule(s); (b) Describe the expected reporting, recordkeeping and administrative activities and cost required to comply with the rule(s); (c) Estimate the cost

of professional services, equipment supplies, labor and increased administration required to comply with the rule(s).

Impact on state agencies, units of local government and the public:

A. The only state agency that would be affected by adoption of these rules is the Oregon Department of Fish and Wildlife. No significant changes from the current levels of the department's operations or expenditures are expected as a result of the adoption of these rules.

B. No units of local government are expected to be affected by these rules. No significant changes from the current levels of any local agencies' operations or expenditures are anticipated as a result of the adoption of these rules.

C. The public could be affected by the adoption of these rules. The persons or businesses most likely to be affected are those who may be assessed damages for commercial fishing violations. The proposed amendments would replace the existing values with updated values. The changes could increase or decrease potential damages depending on the species and the market prices for those species in the last year. Overall, it is unlikely that there will be significant changes in the magnitude of total damages that could be incurred.

Cost of compliance effect on small business:

There is no cost associated with small businesses for compliance with the rule changes.

---

DESCRIBE HOW SMALL BUSINESSES WERE INVOLVED IN THE DEVELOPMENT OF THESE RULE(S):

Small businesses were not directly involved in the development of this rule.

---

WAS AN ADMINISTRATIVE RULE ADVISORY COMMITTEE CONSULTED? NO IF NOT, WHY NOT?

An Administrative Rule Advisory Committee was not consulted because this is a recurring rule change that updates market values yearly.

---

AMEND: 635-006-0232

RULE SUMMARY: Rule modifications will update existing food fish species' market values used to assess damages resulting from commercial fishing violations.

CHANGES TO RULE:
