Commissioners,

I am a Port Orford resident and commercial fishermen. I've realized how much of an impact not having a bubble fishery has had on all of us. The port of Port Orford the restaurants the hotels, and all the fishermen from young to old and who are not able to commercial salmon fish in November. I think it's important for this community to have this bubble fishery. If the abundance forecasts is high enough we should have a November commercial troll fishery here. Please consider that this industry is getting smaller and smaller each year and we could use any help we can get as well as the community here in Port Orford.

Thank you,
Nick Bordelon
