STATEWIDE REGULATIONS:

- It is **mandatory to have a descending device** onboard the vessel when fishing for Pacific halibut and to use the descending device when releasing any rockfish species when fishing outside of 30 fathoms.
- Daily bag limit: 1 Pacific halibut for the Columbia River Subarea and 2 Pacific halibut for the Central Oregon Coast and Southern Oregon subareas. Annual limit: 6. No length limit.
- Pacific halibut possession limit: 1 daily limit at sea, 3 daily limits on land.
- Fathom lines and conservation areas are defined by waypoints: myodfw.com/waypoints-sport-fishing
- Pacific halibut seasons are managed and enforced based on port of landing. Halibut may only be landed into ports located within areas currently open to halibut retention, regardless of area of catch.
- During all-depth halibut days, longleader gear fishing OR the traditional general marine bottomfish fishery (lingcod and black rockfish) may be combined with all-depth halibut during days when the bottomfish fishery is not depth restricted. **The longleader fishery and traditional bottomfish fishery cannot be combined on the same trip.**
- Sablefish, Pacific cod & other flatfish species can be combined with all-depth halibut and the longleader gear or traditional bottomfish fishery. When retained, Pacific cod will count towards any bottomfish and/or longleader bag limit.
- When angling for Pacific halibut outside of the 40-fm regulatory line, salmon (as regulations allow), bottomfish (as regulations above allow), tuna and most other offshore pelagic species may be in possession or landed when Pacific halibut are onboard the vessel.
- It is unlawful to fish for or take and retain any species while possessing onboard any species not allowed to be taken in that area at that time.
- Anglers are advised to consult the 2025 Oregon Sport Fishing Regulations for General (statewide), Zone, and Special Regulations prior to fishing.
