---

Dr. Debbie Colbert,

I am writing to encourage you to stand behind your commission's 2023 Memorandum of Agreement with the Confederated Tribes of Grande Ronde that expanded access to the Tribe's historical homelands for subsistence and ceremonial hunting.

This agreement was a long-overdue step to recognize Grand Ronde's sovereign rights and cultural traditions. This historic decision should not be reversed so hastily, especially at the behest of other tribes (many of which do not reside in Oregon) who have long antagonized the Grand Ronde at every turn for no other reason than their own enrichment.

The 2023 agreement has not only allowed the Tribe to carry out ceremonial and subsistence fishing and hunting (benefitting tribal members, their families, and their community, many of whom live away from the reservation) but also brings the Grand Ronde in line with other western Oregon tribes that already have similar agreements with the state.

The vote you took was legal, fair, and based on strong precedent. Considering the original agreement already requires a review by the Commission in 2028, revisiting it now would damage trust, undermine the state's relationship with tribes, and create unnecessary division.

This agreement does not interfere with any other tribe's treaty rights, and it deserves to stand.

I ask you to stay the course and deny petitions to reopen rulemaking on this issue.

Sincerely,

Brent Bruckner

Dear Mr Baylor

I would like to submit the following as written comment to the ODFW Commission on the referenced Petition.

This Petition is part of an effort to increase tribal members access to hunting and fishing outside of their tribal areas all to the detriment of the non tribal residents of the State of Oregon. The Commission owes a duty to all Oregonians to treat us equally and without racial preference and thus the Petition should be denied.

Thankyou

Fred Yeck

70 yr resident of Oregon
