

A composite image of Earth from space. The Earth's blue oceans and white clouds are visible in the lower half. A vibrant rainbow arches across the middle of the frame. In the upper right, a bright sun flare illuminates the scene, creating a lens flare effect. The background is a dark, starry space.

ADDRESSING
CLIMATE AND
OCEAN CHANGE

CLIMATE AND OCEAN CHANGE POLICY

Provides direction and guidance to:

- Conduct analyses that inform goals and strategies
- Incorporate into planning & implementation
- Revise research and monitoring

ANALYSES

TO UNDERSTAND RISKS

- Snowpack
- Rainfall
- Stream flow
- Stream temperature
- Stream drying
- Riparian vegetation
- Ocean

PLANNING

CLIMATE AND OCEAN CHANGE ANALYSIS INFORMS:

- **Future Status**
Long term outlook (>20 yr)
- **Management Strategies**
Annual, Intermediate, Long term
- **Future Monitoring**
