

Upper Snake Summer Steelhead SMU

ESA Designation:
No Designation

State Status:
No Status

Interim Assessment:
Extinct

Small irrigation dams and diversions had already reduced habitat quality in the first half of the 20th century. Passage to the Malheur basin was eliminated with the construction of Warm Springs Dam (1919) and Agency Dam (1935). All of the populations within this SMU became extinct after completion of the Hells Canyon Dam complex in 1967 eliminated anadromous passage. Resident and fluvial forms of redband trout persist in these basins.

Population	Exist	Dist.	Abund.	Prod.	Ind.	Hybrid
Pine	Fail					Extinct Population
Eagle	Fail					Extinct Population
Powder	Fail					Extinct Population
Burnt	Fail					Extinct Population
Malheur	Fail					Extinct Population
Owyhee	Fail					Extinct Population
