# Columbia River Action Notice

## Compact Action

---

---

Oregon Department of Fish and Wildlife

May 18, 2006

---

---

The Columbia River Compact agencies of Oregon and Washington met today to review spring Chinook stock status and took the following actions:

### Non-Indian Fisheries

#### *Spring Commercial Salmon Fishery*

- Adopted a non-Indian commercial salmon season as follows:

Season: 7 PM Thursday May 18 to 7 AM Friday May 19 (12 hrs)

Area: Mouth to Kelley Point (Zones 1 - 4).

Sanctuaries: Grays River, Elokom-B, Abernathy Creek, Cowlitz River, Kalama-B, and Lewis-B sanctuaries will be in effect.

Gear: 8" minimum and 9-¾" maximum mesh size restrictions in effect.  
Net length not to exceed 150 fathoms.  
Use of monofilament nets is allowed.

Allowable Sales: Adipose fin-clipped Chinook salmon, sturgeon, and shad.

**A maximum of twelve green or white sturgeon in the aggregate may be possessed or sold by each participating vessel during each calendar week (Sunday through Saturday) of the open fishing period. Maximum green sturgeon size limit is 60". The twelve sturgeon possession and sales limit includes both mainstem and Select Area fisheries.**

Participants: Columbia River commercial fishers with appropriate licenses and legal gear that attended a state-sponsored workshop concerning live capture commercial fishing techniques and possess a certificate that allows participation in this fishery.

Owners or operators of commercial fishing vessels must cooperate with Department observers or observers collecting data for the Department, when notified by the observer of their intent to board the commercial vessel for observation and sampling during an open fishery.

Miscellaneous Regulations: As adopted at January 26, 2006 Compact hearing:

Soak times, defined as time elapsed from when the first mesh enters the water to when the last mesh leaves the water, must not exceed 45 minutes.

Miscellaneous Regulations continued: Red corks are required at 25-fathom intervals and red corks must be in contrast to the corks used in the remainder of the net.

Use of recovery boxes will be required on all lethargic or bleeding salmon or steelhead.

Each vessel participating in this fishery is required to have two operable recovery boxes or one box with two chambers in place. Operable recovery boxes require a flow of 16-20 gallons per minute to each chamber of the box(es). Each box must be operating during any time that the net is being retrieved or picked.

Lighted buoys are required on each end of nets being fished between sunset and sunrise.

**Washington  
Reporting Rule**

WDFW adopted a regulation requiring all Washington wholesale buyers purchasing fish from commercial fisheries to send a report of their landings to WDFW by 10 AM on the day after the purchase date via either:

- a. Fax transmission to (360) 906-6776 or (360) 906-6777
- b. E-mail to [crfishtickets@dfw.wa.gov](mailto:crfishtickets@dfw.wa.gov)
- c. Telephone to 1-866-791-1281

---

## FUTURE MEETINGS

- A Columbia River Compact hearing is scheduled for 2:00 PM Monday May 22, 2006 via teleconference to review spring Chinook stock status and consider additional commercial fishing periods.
  
- For information concerning these decisions see May 18, 2006 Spring Fact Sheet #3. [http://www.dfw.state.or.us/OSCRP/CRM/FS/06/06\\_may\\_18fact.pdf](http://www.dfw.state.or.us/OSCRP/CRM/FS/06/06_may_18fact.pdf)
  
- Recorded Sport Fishery Updates and Action Notices can be accessed by calling (503) 657-2000 ext. 392.
  
- Recorded Columbia River "Mainstem" Commercial Fishery Updates and Action Notices can be accessed by calling (503) 657-2000 ext. 391.
  
- Recorded lower Columbia River "Select Area" Commercial Fishery Updates and Action Notices can be accessed by calling (503) 657-2000 ext. 396.
