
Columbia River Action Notice

Compact Action

Oregon Department of Fish and Wildlife

March 13, 2006

The Columbia River Compact agencies of Oregon and Washington met today to review salmon stock status and consider non-Indian commercial salmon fishing options and took the following actions:

Non-Indian Fisheries

Commercial Mainstem Winter Salmon Fishery

- Adopted a non-Indian commercial salmon season as follows:

Season: Noon Tuesday March 14 to 6 AM Wednesday March 15 (18 hours)

Area: Mouth to Kelley Point (Zones 1 - 4).

Sanctuaries: Grays River, Elokom-B, Abernathy Creek, Cowlitz River, Kalama-B, and Lewis-B sanctuaries will be in effect.

Gear: 8" minimum and 9-¾" maximum mesh size restrictions in effect.
Net length not to exceed 150 fathoms.
Use of monofilament nets is allowed.

Allowable Sales: Adipose fin-clipped Chinook salmon, sturgeon, and shad.

Participants: Columbia River commercial fishers with appropriate licenses and legal gear that attended a state-sponsored workshop concerning live capture commercial fishing techniques and possess a certificate that allows participation in this fishery.

Owners or operators of commercial fishing vessels must cooperate with Department observers or observers collecting data for the Department, when notified by the observer of their intent to board the commercial vessel for observation and sampling during an open fishery.

Miscellaneous Regulations: As adopted at January 26, 2006 Compact hearing:

Soak times, defined as time elapsed from when the first mesh enters the water to when the last mesh leaves the water, must not exceed 45 minutes.

Red corks are required at 25-fathom intervals and red corks must be in contrast to the corks used in the remainder of the net.

Use of recovery boxes will be required on all lethargic or bleeding salmon or steelhead.

Each vessel participating in this fishery is required to have two operable recovery boxes or one box with two chambers in place. Operable recovery boxes require a flow of 16-20 gallons per minute to each chamber of the box(es). Each box must be operating during any time that the net is being retrieved or picked.

Lighted buoys are required on each end of nets being fished between sunset and sunrise.

Washington
Reporting Rule:

WDFW adopted a regulation requiring all Washington wholesale buyers purchasing fish from the commercial mainstem sturgeon and smelt fisheries to send a report of their landings to WDFW by 10AM on the day after the purchase date via either:

- a) FAX transmission to (360) 906-6776 or (360) 906-6777
- b) E-mail to crfishtickets@dfw.wa.gov
- c) Telephone to 1-866-791-1281

FUTURE MEETINGS

- A Columbia River Compact hearing is scheduled for 2:00 PM Wednesday March 15, 2006 via telephone to review the ongoing winter commercial salmon fishery, consider additional fishing options, and consider modifying the mainstem commercial smelt fishery.

For information regarding these decisions see March 13, 2006 Winter Fact Sheet #7.
