\* Components may not sum to totals shown since individual forecasts are not available for all upriver spring Chinook tributaries. Wild components are included in the stock total.

\*\* Return to tributary mouth (except that 2018 forecasts for Sandy, Cowlitz, Kalama, and Lewis rivers are at the Columbia River mouth).

\*\*\* 2017 return is based on standard TAC run reconstruction methodology.

\*\*\*\* BUB production moved to PUB - no adults expected to return in 2018
