FISHING VESSEL LANDING RECORDS RELEASE FORM

Oregon Revised Statute 192.501(5) conditionally exempts fish ticket catch records from disclosure under the Oregon Public Records Law, unless the public interest otherwise requires. The Oregon Department of Fish and Wildlife (ODFW) has determined that the vessel owner who is credited with the landings of the fish and/or shellfish may examine the landing information for that vessel. The Department has also determined that for the purposes of providing landing information for the Groundfish Individual Trawl Quota, the current boat owner may examine a yearly summary of pounds landed by species for years 1994-2006. The request must be in writing and signed in the presence of a Notary Public. If the vessel is in a corporation's name, please provide documentation that the requestor is on the board for the corporation. Send the completed and notarized form, with a check for \$20.00 made out to ODFW, to:

Oregon Department of Fish and Wildlife
