I. PURPOSE

To describe the procedure for removal or reassignment of management service employees during times of reorganization or reduction in staff by using merit principles.

II. POLICY

Because the State of Oregon and the Department of Fish and Wildlife value stability in the workforce and the talents and contributions of its employees, removal of management service employees shall be used when other workforce adjustment measures are not feasible.

- A. A management service employee may be removed from management service due to reorganization, lack of work, reduction in funds or other reasons which are not for cause.
- B. All workforce adjustment measures, e.g., reassignment of employees to existing vacancies where qualified, voluntary terminations or demotions within the management service shall occur prior to implementing the layoff procedure. The director may freeze vacant positions to allow affected employees to voluntarily transfer and or demote without competition, provided the employee meets the minimum and special requirements of the new position.
- C. Only after department-wide workforce adjustment measures have been taken, and only when the number of employees in a given classification exceeds the number of available positions within the classification, shall a removal be implemented.
- D. Should the workforce adjustment result in removal of employees, the Human Resources Administrator shall make every reasonable effort to:
 - 1. inform employees of their options and the process to be considered for other opportunities within state service; and
 - 2. minimize the negative impact on employees to the extent possible according to sound judgment and applicable rules and policies.
- E. This policy does not authorize displacement (bumping) within the management service by a

management service employee.

- F. A management service employee removed according to this policy shall be placed on the management service agency layoff list for their classification. If the classification the employee was laid off from is removed from the agency's classification plan, the agency will place the employee on the layoff list for the classification that most closely represents the work of their former position. Those management service employees whose removal/layoff results in separation of employment with the state may be added to the statewide layoff list for consideration in other agencies for the same, equal, or lower classifications pursuant to State HR Policy 50.025.01 Layoff/Removal, and. State HR Policy 40.010.02 Recruitment and Selection.
- G. Procedure for Removal of a Management Service Employee:
1. The director or designee shall:
 - a. Determine the specific number of positions, classification(s), organizational unit(s), and/or geographical area(s) affected for a pending layoff/removal. The removal shall be confined to the designated organizational unit(s) (e.g. the specific project).
 - b. Consider the needs of the organization in terms of the types of positions; special knowledge and skills necessary to accomplish the work of the agency.
 - c. Identify all employees by classification for each designated organizational unit and/or geographic area designated.
 2. The Human Resources Division Administrator in conjunction with the appropriate Deputy Director shall evaluate all regular status and promotional trial service employees (who held regular status prior to promotion) in the specific organizational unit and identify the employee(s) to be removed, taking into consideration the following provisions in descending order of importance:
 - a. The qualifications of the employees in each classification affected in terms of special skills or expertise and the diversity of workers as it relates to the department's ability to provide service, and minimal transition time for an individual to be capable of performing the specific requirements of the positions;
 - b. The quality of performance and relative merit of each employee in the classification(s) affected as determined by the employee's most recent performance evaluation; and
 - c. Length of state service.
 3. The appointing authority shall, at least 15 calendar days prior to the effective date of removal, provide written notice to the identified employees of the pending action, date, rights and options, and assist them in making their transition. At least 15 calendar days prior to the effective date of removal, the Human Resources Division Administrator shall issue layoff notices by classification to employees identified for layoff.

4. Layoff/removal notices will include:
 - a. The date of layoff/removal.

 - c. Layoff/removal rights and options, if any.
 - d. Date for responding to layoff/removal options.
5. Management service employees may elect to demote into vacant management service or classified positions which are available for filling only as a workforce measure prior to layoff. Employees must meet the minimum and special requirements, if any, of the position. The Human Resources Division Administrator, in conjunction with the appropriate deputy director, shall assign employees who elect to demote to the position, subject to the needs of the department and the qualifications of the employee. Employees may only demote into classified positions after all contractual obligations for represented employees have been satisfied.
6. A management service employee removed in accordance with this policy shall be laid off and their employment terminated. Employees, other than initial trial service employees, who have been removed, shall be placed on the department's management service layoff list for the former management service classification.
7. If the classification the employee was laid off from is removed from the classification plan due to classification maintenance, the department will place the employee on the department management service layoff list for the classification that most closely represents the work of their former position.
8. A management service employee in initial trial service shall be laid off, and their employment terminated. The employee is **not** eligible for placement on the department's management service layoff list. The employee may be restored to the eligible list from which appointed, if such list exists.
9. Except for employees in initial trial service, those management service employees whose removal/layoff results in separation of employment with the State, in addition to their right to be placed on the department layoff list, may request to be on the statewide layoff list for consideration in other agencies for the same, equal to or lower classifications pursuant to State HR Policy 50.025.01 and State HR Policy 40.010.02 Recruitment and Selection.
10. The term of eligibility on layoff lists shall not be longer than two years from the date of layoff. If an employee on the layoff list is offered a position, the employee shall have one right of refusal. An individual shall be removed from the layoff list upon the second refusal of a job offer or when an individual accepts a position within the state and has returned to work (other than temporary work or limited duration work).
