

**Instructions for Online Respiratory Medical  
Evaluation Questionnaire for ODFW Employees  
Required to Use Respiratory Protection**

All workers (employees and host volunteers) required to wear a respirator for work activities must complete an online medical evaluation, regardless of how often a respirator is worn. The purpose of the respiratory medical evaluation is to ensure that workers are able to medically wear a respirator for work activities. The worker must not perform any work with a respirator until medically cleared.

1. To log in to the Online Respiratory Medical Evaluation questionnaire use the following link:  
[www.vestmed.com/phsmobile](http://www.vestmed.com/phsmobile)
2. Once at the site, enter the following username and password (both are case sensitive):

Username: PHScandidate

Password: OGN001

3. You must fill in all the information requested (including birthdate, height, weight, medical history, etc.) or your questionnaire will not be accepted by the system.
4. Once you have completed the questionnaire click the "Submit Form" button.
5. If you are medically approved: print one (1) copy of the release page PDF file for your records.

If your evaluation is designated for review by physician, print one (1) copy of the release page PDF file for your records and one (1) copy of the review PDF file for your records.

A follow up email will be sent that may require you to call a reviewing physician at (844) 278-7193. Once cleared, another e-mail will be sent with your final clearance status notice; print one (1) copy of the final clearance notice for your records

If you do not pass the medical evaluation, contact an ODFW Safety and Health Manager at (503) 947-6062 or (503) 947-6143 for next steps.
