Project #	Project Title	Project Description
2014-06	Murderer's Creek	This project will continue to enhance critical mule deer habitat in the Murderers Creek Wildlife Management Unit (WMU) by removing encroaching western juniper from the landscape. Access & Habitat funds are used for habitat improvements (i.e. juniper removal) on private lands and will be partnered with \$647,000 of other funds that will be available to private landowners within the Murderers Creek WMU over the next three years.
2014-10	Green Diamond TMA	Utilize ODFW funds for one OSP trooper to patrol travel management area during the patrol period of March 1-November 30, beginning in March 2015 and ending in November 2019. Operate and maintain two (2) surveillance cameras where vandalism and road violations are a problem. Provide funding for an OSP law enforcement officer to supervise temporary sworn employee. Coordinate with GDRC and ODFW to prioritize patrol areas.
2014-11	Jackson TMA	One dedicated OSP trooper will routinely patrol the project area specified in the ODFW Big Game Regulations. Patrol time to be reimbursed based on actual work. OSP will make personal contacts with persons using project lands. This will include, but not be limited to, road use, firewood cutting, garbage dumping, camping, hunting, fishing, and other miscellaneous uses. The intent to these personal contacts is to inform persons about the potential land and resource damage that may be occurring from improper use, and to enforce road closure regulations by issuing citations and/or warnings. OSP shall provide funding for an OSP law enforcement officer to supervise temporary sworn employee.
2015-02	Jenkins Access	The 4,770 acres of by permission access funded at \$1.44/acre for three years. The 8,187 acres that are welcome to hunt access gets funded at \$2.40/acre for three years. 2015-03	Wendling TMA	OSP will provide law enforcement by routinely patrolling the project area specified in the ODFW A&H Wendling TMA project proposal (approx. 118,000 acres of private timberlands). Patrol time to be reimbursed. OSP will make contact with persons using project lands. This will include, but not be limited to, road use, firewood cutting, garbage dumping, camping, hunting, fishing, and other miscellaneous uses. The intent to these personal contacts is to inform persons about the potential land and resource damage that may be occurring from improper use, so as to prevent further damage to project property.

Reimburses OSP for 6 troopers to routinely patrolling the project area specified in the ODFW A&H Willamette Private Lands Law Enforcement (approx. 1.25 million acres of private timberlands). Dedicated TMA patrol time is reimbursed. OSP shall make personal contacts with persons using project lands. This will include, but not be limited to, road use, firewood cutting, garbage dumping, camping, hunting, fishing, and other miscellaneous uses. The intent to these personal contacts is to inform persons about the potential land and resource damage that may be occurring from improper use, so as to prevent further damage to project property.

2015-05	Linn County Forest Deputy	The project area encompasses approx. 389,500 acres of private forest land and approximately 121,300 acres of public land (total acres: 510,800). Access to the majority of these lands is controlled by the applicants. Public access to these private lands is allowed through general consent of the larger landowners or on smaller parcels by landowner permission (issuance of a free permit). Gates help control trespass, vandalism, dumping, fire risk from public related causes, and other illegal activity. The applicants provide access to the public for hunting for both recreational purposes and to help control damage to forest plantations from deer and elk. Having a year-round law enforcement coverage presence has greatly reduced the amount of illegal activity and has enabled the applicants to continue to provide access to the public for hunting.
