WELCOME TO MANULIFE FOREST MANAGEMENT, INC. LANDS

We sincerely hope you enjoy your visit. Manulife Forest Management, Inc. has a strong commitment to sound management of our natural resources, and to provide you with a quality recreational experience. Here are a few things you can do to help:

- 1. Roads that are gated, signed or bermed are closed to all motorized vehicles. Cross country travel is not permitted.**
2. Leave a clean camp! Please don't pound nails into live trees. Pack out all garbage. If you must build a latrine, remove all building materials and cover the trench before you leave. Please don't leave a mess for someone else to deal with.
3. Drive safely! Remember, these roads have logging trucks on them, and a 40-ton truck can't maneuver as well as your vehicle. If possible, stay off the road during working hours, and don't block gates or roadways when parking your vehicle.
4. Don't cut down snags! Snags (standing dead trees) are a very important part of the habitat for non-game wildlife like woodpeckers and owls. We try to provide habitat for these species by leaving snags as a part of our forest management activities. Please don't cut down snags; there is plenty of wood on the ground that can be used for camp wood. Thanks, on behalf of our non-game friends.
5. **ATTENTION DEER AND ELK HUNTERS:** ODFW is testing for Chronic Wasting Disease (CWD), a fatal, infectious disease. For testing, you may contact your local ODFW office to set up an appointment, submit a head via collection barrel outside your nearest local ODFW office, or stop by a deer or elk season check station. Please visit myodfw.com/CWD for more information.

THE EMPLOYEES OF MANULIFE FOREST MANAGEMENT, INC. AND OREGON DEPARTMENT OF FISH AND WILDLIFE

*Manulife Forest Management, Inc.
USDA NRCS Voluntary Public Access and Habitat Incentive Program
Oregon Department of Fish and Wildlife*

Please be aware of heavy logging traffic on some roads. No one involved in these operations is allowed to hunt, transport game or hunters while using vehicles in the closed area.

Use caution with firearms. Do not leave camp or warming fires unattended. Please pack out all litter.

During periods of high fire danger, camping, and campfires may be prohibited. There is a 14-day stay limit for camping.

All hay and straw used by hunters for horse and mule feed or bedding must be certified free of noxious weeds. This requirement is necessary to limit the spread of noxious weeds.

The landing of aircraft is prohibited except for emergencies.

Notice:
Manulife F.M., Inc. does not allow unauthorized commercial packing, guiding, or hunting services or commercial gathering of firewood or mushrooms on its lands.
