

ATTENTION DEER AND ELK HUNTERS: ODFW is testing for Chronic Wasting Disease (CWD), a fatal, infectious disease. For testing, you may contact your local ODFW office to set up an appointment, submit a head via collection barrel outside your nearest local ODFW office, or stop by a deer or elk season check station.

Please visit www.myodfw.com/CWD for more information.

Visit www.OregonHuntingMap.com for an interactive map that is available on your cell phone or tablet. Download free Geospatial PDF maps before your trip to view your location, even when you do not have cell service.

Notice: Manulife Forest Management, Inc. and Green Diamond Resource Company do not allow recreational trapping, unauthorized commercial packing, guiding, or hunting services or commercial gathering of firewood or mushrooms on their lands.

WELCOME TO MANULIFE FOREST MANAGEMENT, INC & GREEN DIAMOND RESOURCE COMPANY LANDS

We sincerely hope you enjoy your visit. We have a strong commitment to sound management of our natural resources, and to provide you with a quality recreational experience. Here are a few things you can do to help:

1. Leave a clean camp! Please don't pound nails into live trees. Pack out all garbage. If you must build a latrine, remove all building materials and cover the trench before you leave. Please don't leave a mess for someone else to deal with.
2. Drive safely! Remember, these roads have logging trucks on them, and a 40-ton truck can't maneuver as well as your vehicle. If possible, stay off the road during working hours, and don't block gates or roadways when parking your vehicle.
3. Don't cut down snags! Snags (standing dead trees) are a very important part of the habitat for non-game wildlife like woodpeckers and owls. We try to provide habitat for these species by leaving snags as a part of our forest management activities. Please don't cut down snags; there is plenty of wood on the ground that can be used for camp wood. Thanks, on behalf of our non-game friends.
4. The goals of the closure are to: 1. reduce poaching and harassment of wildlife; 2. enhance recreation; 3. reduce fire hazard; 4. reduce damage to roads; 5. reduce stream sedimentation; and 6. reduce the spread of noxious weeds.

Thanks again and have a nice trip.

 Oregon Department of Fish and Wildlife

Period of Restrictions:
 Year Round

Only the roads shown in green, and the adjacent area within 300 feet of those roads are open to motorized vehicles during the period of restrictions.

Motorized vehicle travel within the Travel Management Area boundary on all other roads and trails, and cross-country is prohibited except by special permit from the landowner or land managing company.

During the period of this closure, normal forest management activities including logging, grazing, and slash disposal will be in progress. Please be aware of heavy logging traffic on some roads. No one involved in these operations is allowed to hunt, transport game, or hunters while using vehicles in the closed areas.

Use caution with firearms. Do not leave camp or warming fires unattended. Please pack out all litter.

During periods of high fire danger, camping and campfires may be prohibited.

The landing of aircrafts is prohibited within the closure area except for emergencies.

All hay and straw used by hunters for horse and mule feed or bedding must be certified free of noxious weeds or have a proof of purchase from a local hay dealer or ranger. This requirement is necessary to limit the spread of noxious weeds in Union County
