The Timbers and Spring Butte road closures are a cooperative travel management project between Oregon Department of Forestry, Oregon Department of Fish & Wildlife, Oregon State Police, Bureau of Land Management, United States Forest Service, and Shanda Asset Management.

There are six (6) objectives to this project:
1) Continue to allow recreational access to the public
2) Improve the quality of deer and elk hunting
3) Reduce illegal kill and harassment of wildlife
4) Improve the quality and quantity of wildlife forage
5) Reduce fire danger and resource damage caused by ATV’s
6) Protect against illegal dumping, wood theft, and vandalism

The Timbers and Spring Butte road closures are a limited access program in cooperation with OSP, ODFW, USFS and BLM. It is not a complete closure to the public but merely a restricted access area. By reducing road density, this will allow larger areas of escapement and cover for wildlife, resulting in an enhanced and quality hunting opportunity.

Only those roads shown in green, and the adjacent area within 300 feet of those roads, are open to motorized vehicles.

TURN IN A POACHER
1-541-617-0617

Please help us enforce this closure by reporting illegal activities. If you witness someone poaching, driving on closed roads, dumping garbage or vandalizing signs do not approach the individuals but get a license number and a description of the vehicle. Phone the number above to contact the Oregon State Police.

Hunting on Private Land is a Privilege, Not a Right. Private land hunting regulations will remain in the future only if the property and rights of private landowners are respected.
