Commercial Nearshore

August 27, 2020

Commercial Nearshore Regulations Effective September 1, 2020

This notice details two-month cumulative trip limit increases for Black Rockfish and Cabezon for periods 5 and 6. Landings of Black Rockfish and Cabezon are running below average and allow for increases. Trip limit increases for remaining 2020 periods are underlined below. These higher limits will allow additional opportunity for attaining larger portions of state Black Rockfish and Cabezon harvest guidelines. Other Nearshore Rockfish attainment is running high and current projections show the quota could be attained toward the end of the year, but for now those limits remain unchanged based on uncertainty in projections and industry input. ODFW will continue to track landings in-season and make additional adjustments as needed.

2-Month Cumulative Trip Limits – No vessel may land more than the following amounts:
