Commercial Nearshore Regulations Effective July 5, 2025

This notice details two-month period limit increases for Other Nearshore Rockfish, Cabezon, and Greenling for periods 4-6 in 2025. These species management categories are running below average and allow for increases. The bimonthly limit increases for remaining 2025 periods underlined below will allow additional opportunity to attain a larger portion of the state commercial harvest guidelines. Black Rockfish harvest is currently projected to be very close to the commercial harvest guideline by the end of the year. ODFW will continue to track landings in-season and make additional adjustments as needed. Check for updates and current regulations at:

https://www.dfw.state.or.us/MRP/regulations/commercial_fishing/gfregs/index.asp#Nearshore2

Quillback Rockfish prohibition: Unlawful to *retain or land* Quillback Rockfish taken with any non-trawl gear for commercial purposes, regardless of permit type.
