Commercial Nearshore Regulations Effective August 4, 2026

This notice details two-month period limit increases for Black Rockfish and Cabezon for periods 4-6 in 2026. These species management categories are running below average and allow for increases. The bimonthly limit increases will allow additional opportunity to attain a larger portion of the state commercial harvest guidelines. ODFW will continue to track landings in-season and make additional adjustments as needed. Check for updates and current regulations at:
