## Commercial Nearshore

October 24, 2022

### **Commercial Nearshore Regulations Effective ~~December 1~~ November 1, 2022**

This notice corrects the October 19, 2022, industry notice which stated the effective date was December 1. The effective date of this change is corrected to **November 1, 2022**. This notice details a two-month period limit decrease for black rockfish periods 6 in 2022. Landings of black rockfish are running high, and harvest is projected to exceed the commercial Harvest Guideline before the end of the year. The trip limit decrease is underlined below. This decrease will extend the time that the fishery can remain open for some black rockfish harvest along with other target species. While the goal is to remain open through December 31, ODFW will continue to track landings in-season and make additional adjustments as needed.
