All catch estimates from salmon-steelhead tag returns have been corrected for nonresponse bias, using the method described in "An Evaluation of the Punch Card Method of Estimating Salmon-Steelhead Sport Catch," by Ronald H. Hicks and Lyle D. Calvin, Oregon State University Agricultural Experiment Station, Technical Bulletin 81, November 1964. Fish caught by daily license holders is included in the catch estimates.

### Table: Salmon-Steelhead Tag Return Data and Estimated Salmon and Steelhead Catch, 2008-2028
