**TO PROTECT AND ENHANCE A LIVING OREGON**

A GUIDE TO ACCESSIBLE OUTDOOR RECREATION AREAS THROUGHOUT THE STATE.
OREGON FOR ONE AND ALL

OREGON’S GREAT OUTDOORS offer a world of things to see and do—from fish hatcheries to wildlife areas to state parks to national forests. This guide is designed to make many of those sites easier to find and use.

A GUIDE TO THE GUIDE

The sites in this guide describe facilities with a level of accessibility or usability according to the standards of the Americans with Disabilities Act (ADA).

The general location of each site is indicated by a numbered box [ ] on the fold-out state map and detailed regional map. Match the number with the appropriate site listing. Each listing includes a brief description of the site, driving directions, contact phone number, services available and accessibility of services.

Although this information was current and accurate at time of publication, changing conditions may affect the availability or accessibility of the site. Visitors are urged to call the site directly for specific information. Note, too, that this is not intended to be a complete list of accessible outdoor recreation sites throughout Oregon.

It also includes non-fishermen who seek to enjoy our state’s natural wealth. Each year, the department handles 900,000 fishing licenses and tags, and 1.3 million applications for hunting licenses, tags, and controlled hunts.

Permits, licenses, applications, reservations, and informative materials are available from the department’s regional and district offices. Helpful information is also available on the department’s website at http://www.dfw.state.or.us.
