

# HUNTERS.....

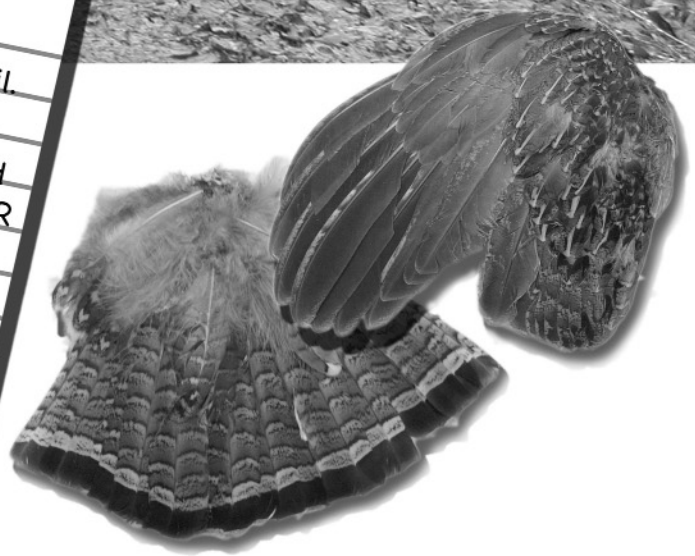

Grouse and mountain quail wings and tails provide ODFW biologists important information about the health of populations. Hunters can help by donating a wing and tail from harvested grouse and mountain quail.

**WE  
NEED  
YOUR  
WINGS  
AND  
TAILS**

## What To Do

1. Remove one entire wing and whole tail, including small feathers.
2. Place in PAPER collecting bags provided at ODFW offices or use your own PAPER bag (1 bird per bag).
3. Mark the bag with the species, date taken, county taken, and general location.
4. Drop wing and tail bag off at designated collection sites which are located around the state and at ODFW offices.
5. If there will be a delay in dropping off your bag, please freeze it!

Hunters participating in this program will be sent wing collection bags and instructions on how to properly submit wings and tails. If you would like to assist ODFW in this effort, please write to: ODFW, 3406 Cherry Ave. NE, Salem, OR 97303, Attn: Dave Budeau or email to [david.a.budeau@state.or.us](mailto:david.a.budeau@state.or.us) Your assistance would be greatly appreciated!
